

## SECESSION SEPARATION OF REPUBLICAN AND DEMOCRATIC STATES

TREATMENT 10/1/2021

There will be a timeline in the near future that United States will face a crossroad between a civil war leading to communism or a secession and separation of blue and red states to be governed by two presidents.

This feature movie is about a democratic president that faces the most important challenges of his presidency related to clashes and divisions between the Republican and Democratic party. With good intentions, he takes away the freedom of speech and forces the Covid 19 vaccination as a ploy to take away Citizen's guns. High crime rate, gun confiscation, illegal border crossing and racism makes things difficult for him to stay as a president representing both parties.

The president goes beyond his authority to make multiple executive orders that violates the US Constitution.

In a White house meeting with the directors of FBI, CIA, Secretary of defense, Vice President and chief of staff, the president offers no options facing the challenges except to violate the constitution in order to protect the American people and keep the two parties together. In order to do that, he proposes the elimination of both 1st and 2nd amendments.

The executive orders do not resonate with the three intelligent directors of CIA, FBI and secretary of State and they unanimously disagree with the president and what he stands for and they would be forced to resign or to be fired.

In the meantime, the Vice President finds out that all three intelligent directors are Republicans and she would take advantage of the situation to plot a murder for the directors and their families to make believe that it is the plot of the administration. She also sees an opportunity to take advantage of the president's weakness and incompetency to gradually invoke the 25th amendment to take power with her lover the chairman of the joint chief of staff that oversees the Army, navy and the air force.

An underground movement by the name of WSO (World Safe Organization) with its leader start to track the government movements. With WSO freedom fighter members nationwide, the monitoring and hacking begin from the White House to Pentagon in order to reveal the government's hidden agenda by creating a short video clip to later show the American people that the Government is taking the nation towards civil war.

As the president and chief of staff discover that the plot was originated by the Vice President, he fires her and in a news conference indicates that he has made a mistake to go beyond his authorities to make invalid executive orders that were in violation of the constitution. He further makes a shocking announcement that the American people must accept the fact that at this moment in time, the nation is better off to move towards secession and separation of fifty States to create twenty-seven Republican States and twenty-five Democratic States including the District of Columbia.

After a new election, two presidents stand side by side to discuss an article that has been ratified by both houses of congress and supreme court to become the historic amendment to the constitution.

And the results are:

Here are the Red states: 27

The red states: Florida, Texas, Arizona, Georgia, South Carolina, South California, Ohio, Louisiana, Mississippi, Alabama, Arkansas, Oklahoma, Missouri, Tennessee, Kentucky, Indiana, West Virginia, Kansas, Nebraska, South Dakota, North Dakota, Wyoming, Utah, Idaho, Iowa, Montana and the last frontier Alaska.

Here are the Blue states : 25

North California, North Carolina, New York, New Jersey, Oregon, Washington State, Colorado, New Mexico, Nevada, Wisconsin, Michigan, Pennsylvania, Main, New Hampshire, Virginia, Illinois, Massachusetts, Rhode Island, Delaware, Minnesota, District of Columbia with Washington DC, Connecticut, Vermont, Maryland and Hawaii.

## SCRIPT

## SCENE #1 MEETING BETWEEN REPUBLICAN SENATORS UNDERGROUND

An underground conference room in an undisclosed location.  
Three Republican senators present.

SENATOR JOSEPH KENNEDY (LOUISIANA):

As a senator, representing the State of Louisiana, this meeting should stay confidential until we decide to go public with the minutes of this meeting being taped. Are you guys OK with that?

The other two senator's node, yes "Great."

It is obvious to me that we need to modify the United States Constitution to have a two state solution for our Country. We are absolutely getting nowhere with one president in four years and with the next president nullifying everything that the past President did, the following four years. Going around and around, every four years.

SENATOR RON JOHNSON

(FL, SENATE MINORITY LEADER):

As a minority leader of the state of Florida, I agree with that assessment. The Democratic Party is after a larger government, will be more progressive and wanting the States to follow socialism and Marxism, but the rest of the country will not follow.

SENATOR BILL ANDERSON (TEXAS):

I am proud of being the senator from the State of Texas. They are after open borders, defunding the police, packing the court, more spending, give away and freebies. Our side and their side is clashing and this could end up being a civil war between the moderate

conservative and leftist extremist. Systemic racism is often used to run their narratives.

SENATOR JOSEPH KENNEDY:

We are nearly 180 degree apart and unfortunately they are backed by big tech giants and we happen to be the minorities but if we keep on waiting and feel sorry for ourselves, things won't get any better. We don't have any support from any of the tech giants.

SENATOR RON JOHNSON:

As they run their narratives and push their agenda, the news has been replaced by commentaries which is brain washing the population. Have you ever noticed that in no debates in any news channels, neither side can simply say " I am convinced?". Things are getting uglier and worst every day.

SENATOR BILL ANDERSON:

Do you guys know what their real agenda is?

Other senators shake their heads, as an indication of "no".

SENATOR RON JOHNSON:

Simply globalism not nationalism. You see, as patriotic as they say they are, the big tech are after one World order. One system that would run the whole World and their agenda is to help China to be the World's super power. All the signs are there. Spending trillions of Dollars to put us way over the national debt of thirty to maybe fifty trillions would allow China to buy our debt as they already own and control multiple US businesses and properties. The Big tech would want to be recognized on the World's stage not U S stage.

SENATOR JOSEPH KENNEDY:

Soon we will lose our first and second amendment and if they try to get our guns away, they will win. Freedom of

speech is no longer relevant with the cancel culture of big tech deciding what would be in public eyes and what will not. Continuing in the same path, we may soon have to answer to Chinese president not the US president. I am suggesting a secession. A separation between the blue and red states but we need a political architect to create a proposal to run this idea by our democratic counter parts to see if we can agree on the details before we run it by the American people through the congress, executive and legislating branch.

SENATOR BILL ANDERSON:

Let me explain historically that secession almost happened in 1860. An example of a secession is when the South separated from the Union in the United States during the beginning of the Civil War period. 11 Southern states each declared secession from the United States, and joined together to form the Confederate States of America. This movement collapsed in 1865 with the defeat of Confederate forces by Union armies in the American Civil War At the time. The capital was Montgomery, Alabama until May 29[th] 1861 and Richmond Virginia until April 3[rd] 1865. Common languages were English, Louisiana French, Spanish and indigenous languages in Indian Territory. The President was Jefferson Davis from 1861 to 1865 and Vice president was Alexander Stephens. Finally in April 9, 1865 Army of Northern Virginia surrendered.

SENATOR JOSEPH KENNEDY:

Guys, it's getting late and I think we need to meet once more with our democratic counter parts senators that are pro secession and take it up to the next level.

SCENE #2 LIVE STREAMING - STUDIO 51 NYABC TV STATION

NYABC TV STATION WITH THE MODERATOR MATT ANDERSON, TWO  
DEMOCRATIC SENATORS AND AN INDEPENDENT SENATOR

MATT ANDERSON (LOOKING AT THE CAMERA):

Thank you for joining me on the set.  
Ladies and gentlemen, I have the  
privilege to interview Senators Tim  
Scott, a Democrat from the great State  
of New York, Senator Charles Henderson  
the majority Democratic leader from  
the State of California and Senator  
Bernie Rosenberg the independent party  
senator from New Hampshire.

Each senator acknowledges by raising hands.

Well Gentlemen, welcome to this news  
conference. The main subject tonight  
is secession and that is the buzz on  
the streets. So Senator Tim Scott,  
please describe why there are always  
conflicts leading to secession between  
Republicans and your party in the  
present administration.

SENATOR SCOTT:

Well Matt, being a New Yorker, the  
conflicts are getting more and they  
are opening up more gaps between our  
two parties. Our parties are getting  
further and further separated as we  
like to help the American people with  
free healthcare and free tuition for  
colleges and Universities and really  
make a difference in the lives of  
immigrants that live illegally in this  
Country. You have to have a heart to  
understand what this country is going  
through. I represent the great State  
of New York and the Statue of Liberty  
represents not just the immigrants  
that came here before us, but the ones  
that will continue to come, even after  
us.

MATT ANDERSON:

What about you Senator Henderson, where do you see the differences that can no longer be reconciled between your party and them?

SENATOR HENDERSON:

Well, let's start with green energy and global warming that we have started in my state of California. My Republican colleague don't really want to do away with Oil, fossil fuel, coal or gas and they have made no efforts to come to the table and admit that eventually our planet will run out of resources that we take for granted and we need to refocus on green energy and stop the pollution. We can't see eye to eye when it comes to global warming and we see the signs every day. Higher temperatures, season after season, more droughts, wilder weather, melting glaciers and shrinking sea ice . Another words, they live for today and careless for our kids and grandkids that are living for tomorrow.

SENATOR ROSENBERG:

Let me also jump in. It is getting to the point that they like to brain wash the American people that we are running the Country towards socialism and Marxism but the fact is that under their leadership, the rich will get richer and poor gets poorer as they want to pay very little for the labor force, whom they got them there at the first place. Labor unions would not even exist in their party.

MATT ANDERSON:

It is very interesting that in none of the past administrations, none of you or none of them has been able to walk across the isle and convince one another, isn't it?

SENATOR SCOTT:

Are you kidding, the word convincing them, no longer exist. The word fighting them on the senate and house floor is the replacement of that word and it is not getting any better. As you know we have a one party system in New York as Mr. Henderson has in California and we are doing just fine.

MATT ANDERSON:

But, isn't it true that American Eagle needs both wings to fly. The left wing and the right wing? So how do you explain that?

SENATOR HENDERSON:

Guess what Matt, American Eagle has been wounded on the right wing and won't fly for a long time to come. It is sad, it is very sad to have American people see us doing nothing under Republican or the Democratic administration. If one administration passes bunch of bills or appoint judges, the next administration basically tries to reverse and nullify it. So we go around and around and hope that our administration would always have both the majority in the house and senate to get anything done.

SENATOR ROSENBERG (READING FROM TELEPROMPTER, LOOKING AT THE CAMERA):

As an independent senator, I see both sides and I am more towards my fellow Democrats than those idiots on the other side. Going back on history, the eleven states that seceded from the Union and formed the main part of the CSA or Confederate States Of America were South Carolina, Mississippi, Florida, Alabama, Georgia, Louisiana, Texas, Virginia, Arkansas, Tennessee, and North Carolina. Their economy was heavily dependent upon agriculture particularly cotton and a plantation

system that relied upon slaves of African descent for labor.

MATT ANDERSON:

Are you suggesting that we pick up where we left off some 160 years ago? Is a future civil war for real?

SENATOR ROSENBERG:

Well, yes. Except this civil war will not have anything to do with slavery and it has everything to do with clash of the two parties.

MATT ANDERSON

Let's take a short commercial and we will come right back in 3 minutes.

### SCENE #3 EXTERIOR OF THE T V STATION

Outside the TV station, a black van pulls in with three men with masks that have the initial WS on their masks. The van approach the security guard and the guard asks for identification. The driver stops but pays no attention to security guard and runs through the wooden gate. It stops outside of the studios. Two men pull out and run through the hallway. As a lady walk by and scared, one of the men pulls her towards himself.

MASK MAN (WILLIE):

Where is Studio 51?

Mask man holds her arm as he is pulling her

WOMAN (DIANA):

Please let me go

WILLIE:

Show us where is Matt Anderson in Studio 51 or I will shoot you right here right now.

The woman agrees as the two gunmen follow her through the studio hallways to reach the studio 51.

Gunmen (Sammy) throw the woman on the floor and enter in the studio as the two camera men jump to hide and Matt Anderson tells the senators to duck as he hides under the desk.

WILLIE (POINTING AT MATT ANDERSON):  
get up, hey you

Two camera men (extra talents) start filming.

He then gets behind the news desk and ask the senators to sit back up and with a husky voice tells Matt to read the piece of paper that he has prepared.

WILLIE:  
Read this out loud or all 4 of you  
will be killed in seconds.

Matt, receives the manifesto and start reading it.

MATT ANDERSON (POINTING AT THE CAMERA):  
Ladies and gentlemen, we are under  
siege by two individuals that want me  
to read this manifesto.

Here I go:

"We are the solders of freedom in  
United States and we plan to break the  
chain of non cooperation between the  
republicans and Democrats. We mean no  
harm, except to get our message  
across. No more anti-gun movements and  
defunding the police. Some of us are  
in military and most of us are  
vigilantes and we operate underground  
in all fifty States. We have unknown  
member of members in congress,  
multiple police stations, FBI and at  
the boarders. If you democrats and  
Republicans can't get it together, we  
will not allow this Country to fall  
into a civil war. We will shut down  
the electrical grids in multiple  
states and will be bombing high-rises  
if we have to prove our point. We will  
prove to you that we mean what we say"

Senator Henderson turns to the Willie.

SENATOR HENDERSON:  
Identify yourself. Are you afraid to  
tell us who the hell you are?

WILLIE:

We won't use these guns unless we have to. So shut your mouth or I will put a tape on it.

By this time the police arrives but it is too late to catch the gunmen, as they run from the studio in the hallways and soon race to jump in the get away van and leave the studio with third member (Jerry) driving.

SCENE # 2 CONTINUE

Back in the studio Matt starts to check on the three senators as the cameras are still rolling and he explains.

MATT ANDERSON:

Ladies and Gentlemen, we have just witnessed an intrusion, a domestic terrorism. We could have been killed. You heard what these people want. They want to prevent civil war. I guess we will find out how. One thing for sure is that, they hate to see us get into a civil war.

SENATOR HENDERSON:

They were wearing masks with the initials WS as I believe these were White supremacists that represent the Republican Party. I will make sure that these animals get their face before the judge. This is a war that Republicans like to start.

MATT ANDERSON:

Wait a minute Senator Henderson. Why are you jumping in to conclusion. You are prejudging this group by just assuming that WS stands for the white supremacist that represents the Republican party? That is unbelievable.

SENATOR HENDERSON:

Hey Mr. Anderson, maybe you are just one of them. He did say that they have unknown members!

## SCENE # 4 WHITEHOUSE NEWS CONFERENCE

A group of reporters are waiting for press secretary to take the stand and soon she walks in with her entourage.

WHITEHOUSE PRESS SECRETARY (JENNIFER SACKY):

Before we start, I like to read a statement from President, Joseph Baldan.

"I have just observed the WS mask men that took over the TV station to threaten the American people and falsely discuss a Civil War. We have asked all law enforcement agencies including US marshal office and FBI to investigate and bring these low lives to Justice. This was a domestic terrorism and we will continue to update the American people".

REPORTER #1:

Jennifer, If these people carry out their threats, what would the Whitehouse do about it?

JENNIFER SACKY:

Let's don't give these people the attention that they expect. Our law enforcement agencies receives these kinds of threats all the time, except this time they were able to get into the TV station, so what? Let's don't take them seriously.

REPORTER #2:

Can you comment on what their manifesto? The part about shutting down the electrical grids. Why not take that seriously?

JENNIFER SACKY::

These are domestic terrorists and any terrorist group is on the FBI database and I can assure you that they will be apprehended.

REPORTER #3:

Ms. Sacky, Isn't it true that the American people are at their boiling point, watching both the house and Senate members that can't get along and a president that cancelling and nullifying just about everything that the last administration did?

JENNIFER SACKY::

I am shocked to receive this question. We have the best democratic system in the World. Just because of the differences of opinions in our congress, domestic terrors can't just take it upon themselves to derail our system.

REPORTER #3:

Our system is failing and you are downplaying this, aren't you? Tell the truth to American people.

JENNIFER SACKY::

I am asking security to remove this reporter. Security get him out of here.

As the reporter is being escorted, he shouts.

REPORTER #3:

Americans can't trust this administration. United States is in a cold war within and you are down playing this. These people meant what they said.

SCENE #5 VAN WITH THREE MEN DRIVING TO COMPOUND IN LAKE ARROWHEAD

The van with three gunmen is driving through roads at a very high speed with gunmen having no masks on.

JERRY THE DRIVER:

Willie, finally we did it, ha?

SAMMY:

Did you not hear him that he wanted us to be identified?

WILLIE:

He was an old man and was not threatening us. He was scared.

JERRY:

The biggest issue right now is that they think we are white supremacist and I told our leader John Haller that there should have been no writings on the masks but I guess he wanted it this way to test the liberals to lead them to believe something different.

WILLIE:

Jerry, right there, lets use the dirt road on the right to get to the compound.

The van pulls into the dirt road and soon stops at a compound (a very large tent with multiple quarters and offices) within the forest. The van stops and the three of them get out and ran into John Haller the leader. John shakes their hands and invites them into the tent under the trees first for a drink and after, as they pass through the compound, they see other solders practicing self defense as they pass by. They soon enter a different tent with multiple freedom solders sitting (conference style) and waiting for the speech. John Haller gets behind the podium as he looks out to the freedom solders. He raises his two hands (holding it up in the air).

JOHN HALLER:

Good afternoon my solders. First, I want to thank our brothers Sammie, Willie and Jerry for an outstanding job to put us on the map in NYABC studios and by the way we had no casualties. It was a successful job. I did not want anyone killed and our brothers made that happen.

There comes a time that any government can no longer function and gets stagnated and it is on a stand steal with two parties unable to get anything done. We are freedom fighters that have been around for over a hundred years and operating underground.

We never surfaced because our

government functioned normally in the past, but now it is dis functioned. I don't need to convince you of that as if you turn on the news, both sides are at it and neither sides can convince the other.

This country is going down fast. We have contacts and members in high places and we are being told that this administration is planning on sending military police to question citizens to show proof of Covid vaccination as a way to get our guns away. Give a shout if you are with me.

Everyone gets up and raises their right hand with a fist and for the next ten seconds shout "freedom of speech and bear arms is our rights that we will defend"

JOHN CONTINUES:

We are the solders of "World Safe Organization" or WSO and we will fight whoever that stands between us and freedom and that includes the US government or any foreign government. We are out here in the jungle and we will sacrifice ourselves to help our country men and women to be free for next generations. What is sacrifice? My definition of sacrifice is allow a few people die now unintentionally to save the rest of the population as we want this government to take us seriously.

That is a wrap my brothers.

Everyone gets up and clap and everyone leaves

SCENE # 6 TV NEWS STATION

Two separate explosions in California and New York (VFX). A

refinery in California and a power plant in New York. Several T V stations start to show the scenes.

NEWS REPORTER ANGELICA HEART:

My God, I have not seen two massive explosions at the same time in different time zones in two separate states. Lets go to our local reporter on the scene. Mark in Long Island, Mark tell us what you know as of now

MARK THE REPORTER:

The news is still fresh and my understanding from these reports is that various sources indicate that this explosion took place, where there were no workers and has caused massive power outage to at least a half a million people. I was told that the blast was five percent of the size of Hiroshima bomb which was 20 tons of TNT. A ton of TNT is a unit of energy defined to be 4.184 gigajoules, which is the approximate energy released in the detonation of a metric ton of TNT. We don't know who will claim responsibility....wait a minute, I see people running away.

ANGELICA:

Sorry Mark, I need to cut in as Andrew is waiting in Long Beach California on the refinery explosion that happened at the same time. Andrew, go ahead

ANDREW THE REPORTER:

This is bazar Angelica. I like to introduce Mr. Alvarez that was a witness earlier.

MR. ALVAREZ:

I heard a big boom a half an hour ago. All my windows and glass doors were shattered but no one in my family got hurt. What is our government going to do about this? Nothing? Do we have any more safety from these domestic terrorists? What is their agenda?

ANDREW THE REPORTER:

Thank you Mr. Alvarez. I see a news

flash now from associate press. Let me read it for the audience.

"An organization by the name of WSO is claiming responsibility for both blasts and they are indicating that no lives were lost as this was the first warning to the United States Government not take away our first and second amendment in the constitution or there will be further incidents."

ANGELICA:

Let's go live to the Pentagon defense department and join the live news conference.

SCENE #7 NEWS CONFERENCE DEFENSE DPT. ARLINGTON VIRGINIA

SECRETARY OF DEFENSE (KEN JAMESON):

I just got off the phone with the president and vice president and briefed them on the situation. So let me start off before any questions are asked.

At 4:30 am this morning, we had two explosions in two different States, Long Beach California and Long Island New York. There were no pre warning of any kinds and these ruthless terrorists intention is unclear. We understand that FBI is investigating this group and all I can tell you is that we will find them and will bring them to justice. I will only answer a few questions as I don't have enough info to share with you.

REPORTER #1)

Mr. Secretary, were there any casualties that you know?

KEN JAMESON:

It is very strange that we have no fatalities, which it leads me to believe that we are dealing with a very sophisticated group. They know exactly what they are doing.

REPORTER #2)

Mr. Secretary, can you confirm that associated press update is correct that this group is called WSO?

KEN JAMESON:

I can not confirm or deny what other news agencies put...interrupted

REPORTER #2)

Sir with all due respect, the group has not asked for any ransom and all they are asking is that our government honor our constitutional rights under first and second amendment, which is not too ....Interrupted

KEN JAMESON:

(As the secretary points to the camera with his index finger)

Let me interrupt you as you interrupted me. You just don't blow up facilities to protect your constitutional rights, and if you do, we will hunt you down and bring you to justice.

REPORTER #3(FEMALE)

Are you in communication with other agencies sir?

KEN JAMESON:

Yes Mam, I got off the phone with the director of FBI and the CIA in Langley and I can assure you that the executive branch is being briefed as well.

REPORTER #4 (FEMALE)

Mr. Secretary, they want no money but yet they went to this great extent to get attention, it does not make any sense, does it?

KEN JAMESON:

Mam, I can't read their mind and no idea what these people end up doing as they might be watching this news conference right now.

## SCENE #8 AT THE COMPOUND

John Haller and rest of the freedom solders are watching the news conference and making comments.

## BACK TO SCENE #7 CONTINUES

REPORTER # 5:

Why not make a statement right here and right now that administration that you are working under is not going to take away the people's freedom of speech and guns so that this group can understand that they won't create another incident?

KEN JAMESON:

I am not the president nor the vice president to..interrupted

REPORTER #6:

But sir, you are a part of this administration, right?

KEN JAMESON:

that is all the questions that I can answer today..as he walks away

REPORTER #6:

shouts, sir, you haven't answered my question yet and you are walking away?

## SCENE # 9 OVAL OFFICE MEETING AT THE WHITEHOUSE

Meeting between the president, Vice president, secretary of defense, FBI director, CIA director and chief of staff.

PRESIDENT (JOSEPH BALDEN):

What is going on here?. First these militants take over a TV station and force the reporter to read their damn manifesto, then they attack the facilities in two different States and they want no money? Fighting for freedom?, give me a break. Come on man.

KEN JAMESON:

Sir, my staff in the department of defense have indicated at least that there are no casualties that we know by now based on what we have received from first responders.

KELLY BERO:

As the FBI director, I confirm that Mr. President. These are professionals and how they got to those facilities through security to blow up a fraction of a ton of explosion is beyond me.

CARLA HARRIS:

This is not acceptable. They must have left some kind of clue and is anyone searching for anything to lead us to these militants?

GREG CAMPBELL:

Ms. Vice President, we at the Central Intelligent Agency take the matter seriously. We are, and our anti-terrorism unit is on this case like a hawk. The name WSO or it's other versions is not in any of our data base here in United States or other countries, but we are not giving up locating them.

ED HEART:

In times like this, my job as chief of staff is not easy. I received multiple calls from several news agencies indicating that one particular agency has received a clip of a video from their leader with a muffled sound and we are searching to see which agency it is so we can obtain and verify it.

KEN JAMESON:

Mr. President, in my news conference, I was asked by a reporter if I could confirm that your administration will honor the constitutional rights of all Americans even including these terrorists. I dodged the question because I did not want to make a statement against the policy of your administration.

JOSEPH BALDEN:

I noticed that and you did a great job there

DEFENSE SECRETARY:

Thank you Mr, President but this question will be raised again and again as I believe this group would want your administration to make a statement.

JOSEPH BALDEN:

The freedom that we have had since the enactment of the constitution is under attack and it won't be the same going forward. There will be restrictions in the freedom of American people and even the press. So far as bearing guns and stock pile of ammunitions and explosives? There is no way that we can continue with the 2nd Amendment and we all know that. How can we do that when the Republicans would not even allow us to take away AR 15 and any other semi or full automatic weapons and so, I would think that if we can't get those dangerous guns, explosives and ammunitions from civilians that live here in the Country, voluntarily, we may have to go door to door and confiscate them.

KEN JAMESON:

Mr. President, I pretend that I did not hear your statement. I can't make this statement in the public representing you, as what you just said is in violation of our constitution.

KELLY BERO:

Mr. President, on Wednesday, March fourth, seventeen eighty nine, congress of the United States held a meeting in the City of New York. The conventions of all the States adopted the constitution. In order to prevent misconstruction or abuse, declaratory and restrictive clauses was added. Mr. President, this was resolved by the Senate and house of representatives of

the united States of America. What I just indicated, Mr. President is that we can't separate the constitution from the rest of the Country, nor you can just amend it as I agree with the defense Secretary.

GREG CAMPBELL:

Mr. President, the wall of China is a representative of Chinese government that sensors information from it's own citizens. Here in the United States, in the 2020 election, we found out that the big tech like twitter, google, YouTube and face book canceled what they thought was not worthy of news for the American people to know. Another words as a free enterprise they took it upon themselves to sensor what seventy two million people wanted to hear. These giant big tech have the freedom but under your definition, American people do not? If only 78 Million of the population voted for Mr. Biden and 72 Million of population voted for Mr. Trump, then whatever happened to the rest of 150 Million of the population? The media never covered that even as of today.

As everyone start to look at each other and President, Vice president steps in.

CARLA HARRIS:

I did not have the slightest idea that three ranking members of this administration are actually Republicans up to now and not a fit for this administration, going forward.

JOSEPH BALDAN:

I think I like to request each of you to submit your resignation by tomorrow for various personal reasons or otherwise we will make an official statement in the news conference, that you have been fired.

Three directors look at each other and start to get closer to each other. The CIA director, looks at both of them and says.

GREG CAMPBELL:

For me Mr. President I will submit my resignation right now because I will not lie to American people except to state the facts and let the chips fall where it supposed to. As to the statement you made Mrs. Vice president, this is not a Republican or a Democrat issue as this is a partisan and an American issue.

Ken Jameson and Kelly Bero both node in agreement and all three exit the door abruptly.

SCENE #10 LOCAL AND NATIONAL NEWS PAPERS AND MEDIA (VFX)

Front page news paper and media (VFX) announcing the resignation of the top ranking administration officials and they would give a news conference on the steps of the Capital.

SCENE # 11 IN THE COMPOUND WATCHING THE NEWS

John Haller and rest of the freedom fighters are watching the news conference.

SCENE #12 NEWS CONFERENCE ON THE STEPS OF THE CAPITAL (VFX)

REPORTER #1:

Sir, may I ask why three of you decided to turn in your resignation at the same time? We were told by the White house that each of you had different personal reasons to leave this administration.

GREG CAMPBELL:

I have always respected the constitution and in the meeting in the Oval Office, I learned that this administration has a tough time with what is stated in our first and second Amendment and that is why I have resigned. No personal reasons and no heart feeling towards the President as I respect the office of the President no matter who is sitting in it, so long as it was an above the board election to elect that president.

REPORTER #2:  
what about you Mr. Secretary?

KEN JAMESON  
James Madison was the 4th president of the United States between 1809 to 1817. He made a major contribution to the ratification of the Constitution by writing the Federalist papers, along with Alexander Hamilton and John Jay. He was the father of Constitution. Thomas Jefferson once wrote to James Madison advocating a Bill of Rights: Half a loaf is better than no bread. If we can't secure all our rights, let us secure what we can". We are in that stage in our nation where freedom is under attack and I can't just look the other way as the Country is moving in that direction, to lose our freedom.

KELLY BERO:  
Three of us have decided to leave this administration and we have no agenda or heart feelings. We respect our president and this administration but it is time to move on.

SCENE #13 DEMONSTRATION ON THE STREETS, LOOTING ACROSS THE NATION..WE NEED FOOTAGE OF POST GEORGE FLOYED DEATH IN MULTIPLE CITIES

Reporters are showing people breaking in and one reporter faces off with few looters and protesters.

ANGELICA HEART:  
Tell me why are you protesting? I get the fact that you are angry, but why looting and destroying people's business?

PROTESTER #1:  
This is the end lady. It's time to move to another Country. Everything is on a stand steal and with the resignation of the top officials it shows that we won't have the same constitution that we once had. So I take what I can and take the law in my hand.

ANGELICA

Anything else?

PROTESTER #1

Look at the South open boarder problems with South Americans purring in. California was under Mexican rule from 1821, when Mexico got its independence from Spain, in 1848. In that year, the treaty of Guadalupe was signed giving back California to United States and now, looks like California is going back to Mexico.

Another protester comes close

PROTESTOR #2:

Secession is coming as we can't live under one president. Republicans want smaller government and less control and more freedom along with anti-choice and anti-abortion and God being in the center of our lives and the democrats want larger government, free education, pro abortion and pro choice, defunding the police and free healthcare. Two parties can't work together any more. We are done with this administration.

PROTESTER # 3:

We are heading towards two separate system, whatever that is, whether we like it or not.

SCENE # 14 AT THE COMPOUND

John Haller and rest of the freedom fighters are watching the demonstration.

SCENE #15 RESTAURANT AT THE HOTEL WITH THREE DIRECTORS

The three former directors decide to have lunch in the hotel across from Capital as the news camera are following them and showing where they are going.

At the hotel where the secretary of defense, FBI and CIA directors having lunch, the waiter brings a portable phone and asks the Defense Secretary if he would take an anonymous call. Defense secretary looks at the two directors and the waiter with shock.

KEN JAMESON:

No one knows we are here, I guess except the press. Let me take the call as I am sure, they want an exclusive interview. Yes, hello who is this?

JOHN HALLER:

Sir, I have a proposition for you. I like to invite you and your college to an undisclosed ...interrupted

Defense Secretary put the phone on speaker.

KEN JAMESON:

You are on speaker, identify yourself

JOHN HALLER:

I am one of the leaders of World Safe Organization or WSO and I like to invite three of you to a meeting in an undisclosed location to discuss our motives related to past two explosion incidents.

GREG CAMPBELL:

Sir, I think you should turn yourself in and then we talk.

JOHN HALLER:

I don't think you understand. I am inviting you to a meeting to discuss why we exist and why we did what we did. If you decline this invitation, there will be a third incident and this time massive number of people may die. You can imagine what twenty ton of TNT can do. If my memory serves, that was what we dropped in Hiroshima. I will call you in 20 minutes and I expect that you respond and once you do I expect that you accept or reject the invitation.

Phone is cut. Massive shock and chills among the former officials of the administration.

KELLY BERO:

I don't think he is bluffing.

GREG CAMPBELL:

I can still ask a favor to trace this call and see where he is.

KEN JAMESON:

I think he is too smart for that but unfortunately we can't disclose this to anyone no matter if we attend the meeting or not. What shall we do?

KELLY BERO:

It's like dealing with terrorists and I am sure when he calls again, he has a demand. I am also sure that he has been watching all the news footage.

The waiter comes back

WAITER (JOSE):

Sorry gentlemen, same person is on the line again.

KELLY BERO:

Waiter, I like you to tell your manager to evacuate all these tables around us as this is a national security matter. We can't have anyone listening to these conversations.

JOSE:

Yes sir.

Soon all the tables around get vacated

KELLY BERO:

Let's tape him this time

Defense secretary take the phone and puts it on speaker

KEN JAMESON:

What is the purpose of this meeting? to take three former administration officials hostage and demand for ransom? You think we are idiots like you with low IQ?

JOHN HALLER:

No sir, I don't think that at all. The purpose of the meeting is very simple. You three as former officials can either convince my group to discontinue further incidents or we can convince you that our motivation is freedom for the American people and you would join our organization.

KELLY BERO:

I can see that you have very low to no IQ. You think that three former administration officials will join a terrorist group? Are you nut?

JOHN HALLER:

It will be an hour meeting and you are still protected by your own secret service and I propose that you bring in a neutral non agenda reporter. If you are telling me that you are rejecting this invitation, we can end this call and you can tune in the news on the third incident. I am hanging up in 5,4,3,2....

GREG CAMPBELL:

Wait..Wait I speak for myself, I am willing to meet you under certain conditions, but I can't speak for my colleagues.

JOHN HALLER:

What are your conditions?

GREG CAMPBELL:

I agree to meet in an undisclosed location, however everyone on your side and my side need to be blind folded all the way to the location. I agree to bring a reporter like Matt Anderson that is an investigative reporter. If I convince you, you should turn yourself in with all the members of your organization and if I am convinced, I will join your organization.

Kelly mutes the phone

KELLY BERO:  
Are you crazy?

GREG CAMPBELL:  
It's a bluff, we have no choice. Do you want a third incident? and carry a guilt the rest of your life?

JOHN HALLER:  
OK, I accept your conditions but I would have to check with all my other colleagues in other States and get back with you in 25 minutes. In the mean time, you all should check with each other on a yes or no answer to my invitation, unanimously.

John hangs up the phone

KEN JAMESON:  
Guys, these are terrorists we are dealing with. What if this is a trap?

KELLY BERO:  
I can't watch a third incident with 20 tons of TNT blow up a portion of any state and watch it on TV. I would have guilt feeling the rest of my life.

GREG CAMPBELL:  
So are we unanimous?

Other two nod yes. The phone rings

GREG CAMPBELL:  
OK, what is the deal?

JOHN HALLER:  
We accept your conditions but we have three additional ones.

GREG CAMPBELL:  
Let's hear it

JOHN HALLER:  
Neither sides should disclose to the administration or news media that we are meeting and why we are meeting. And two the disclosed location would be in a middle of a forest and an area with no receptions and the third,

no guns of any kind except your armed secret service that would be an exception so you would feel protected. The pickup point would be given by latitudes and longitudes on a self-destructive paper that once you see the number, would self-destruct. Knowing that you agree, I already sent you the package.

Greg Campbell hangs up the phone as the waiter walks in to their table and hands Ken Jameson a small package.

JOSE:

Excuse me sir, just a few seconds ago, a messenger dropped this off.

Ken receives it and opens it and inside, there is an ashtray with a self ignite wrapped paper and a pack of cigarette.

He opens the paper and holds his phone as he would be taking a picture. The paper has latitude and longitude numbers with a date and time. As soon as he takes the picture, the paper burns in the ashtray by itself.

SCENE #16 TWO SUV HEADED TO THE COMPOUND

Two black SUV gets dropped off in an undisclosed location in front of three secret service personnel, along with Matt Anderson, Greg Campbell, Kelly Bero and Ken Jameson. One of the two drivers, walks away. The seating arrangements becomes the issue as the 3 secret service and their driver discuss and decide who sits where in which SUV.

SCENE # 17 THE SEATING ARRANGEMENT IS BEING MONITORED IN PENTAGON BY A DRONE

As eight men are discussing who sits where, the movements of the men is being monitored by two people at Pentagon in a room where a drone pilot is flying an armed drone above without the eight men below, noticing it. The second man in the same room has a hidden camera that shows the activities. Just about the time that the secret service and other men decide which car to sit in, the man with the hidden camera distract the drone pilot.

MAN WITH HIDDEN CAMERA:  
Hey, look here man

Drone pilot turns around and at the same time the 3 secret service and their driver take the front SUV and others take the back SUV but the drone pilot does not see that. Matt Anderson is driving the SUV in the back following the secret service SUV in the front.

DRONE PILOT:  
What? You just distracted me

MAN WITH HIDDEN CAMERA:  
I'm going to get a drink, you want something?

DRONE PILOT:  
Get me a bottle of cold water.

By the time the drone pilot turns around, he sees that the passengers are already in the two cars driving. He hits the rewind but can't get the camera to show the past scenes. Just about the time that the man with the hidden camera is getting ready to leave the room.

DRONE PILOT:  
Wait, don't leave yet. Did you see who sat in which car?

MAN WITH HIDDEN CAMERA:  
yap, looked like the secret service agents with their driver sat in the back SUV.

DRONE PILOT:  
Are you sure?

MAN WITH HIDDEN CAMERA:  
Yes, positive 100%

He then leaves the room and enters the break room and starts transmitting the recorded videos from his hidden camera. He then turns around and goes back to the drone room.

## SCENE # 18 AT THE COMPOUND

John Haller and few of his high ranking uniform generals are watching the transmission from the compound.

JOHN HALLER:

Very interesting. They are monitoring the defense secretary and the other two directors and we are monitoring them. Somebody is triggering this and must be from higher up, but lets see what happens. I hope the US government would not destroy those cars and put the blame on WSO.

## SCENE # 19 TWO SUV DRIVING TOWARDS THE COMPOUND

The two SUV drive on a windy road (North Bay road in Lake Arrowhead), they stop at the gate and soon they enter the gated area leading to unpaved road towards the forest where the compound is.

## SCENE # 20 DRONE PILOT SHOOTING ONE OF THE TWO SUV

As the drone pilot is watching the two SUV entering the unpaved road with the man with hidden camera behind him he gets a call.

WOMAN ON THE PHONE :

Are you engaged?

DRONE PILOT:

Yes PV

WOMAN ON THE PHONE:

green light

Drone pilot pushes the button and drone sends the first rocket to the front SUV that was carrying the secret service and driver and destroys the SUV. We see the explosion and killing of 3 secret service and their driver (VFX).

DRONE PILOT:

Mission accomplished mam

Man with the hidden camera gets closer to the drone pilot from the back and puts his arm around his head (choke hold position) and twists his head and kills him. He through the body on the floor as he is still filming and takes control of the drone and puts it on a free fall to finally destroys the drone on the ground (vfx).

He then, takes out the chip from the drone control panel (VFX) which has the videos and drops it in a capsule full of acid (vfx)and destroys it. He picks up the phone and redial the number and starts a dialog with the woman that called earlier.

MAN WITH HIDDEN CAMERA:

Whoever you are, your mission was not accomplished, my mission was accomplished and it is over. No one is above the law including the US government that wanted to assassinate it's former ranking officials because of policy disagreements. I was a freedom fighter and there are millions of us out there watching the administration.

He then transmit the footage to the compound and once he sees the transmission complete, he swallow two Sinai pills as we see foams coming out of his mouth as he dies and falls on the floor, next to the drone man's body.

SCENE # 21 THE SURVIVING SUV CONTINUES TO GO TO THE COMPOUND

Matt Anderson stops the car as he sees right in front of him the secret service SUV blown up (VFX) and next to it they see the drone crash scene (VFX).

MATT ANDERSON:

What the hell? Guys, we made a mistake trusting these terrorists. We fell in the trap.

GREG CAMPBELL:

Wait a minute. If it was them, why are we still alive?

KELLY BERO:

I agree. That drone could have shot both SUV not just one,

KEN JAMESON:

And if we were the target, we would be right after the secret service suv and before the drone crash.

Matt continues to drive as he finally gets to the compound, following the GPS coordination.

A few freedom solders receive them and open the doors for them to get out. As we see the four men scared and hesitant to exit the SUV very nervous and they get escorted to a hidden office within the compound.

John Haller gets close to shake hands but men refuse to shake his hand.

JOHN HALLER:

Please sit down gentlemen as we have a lot to talk about.

KEN JAMESON:

Why did you not kill us as well or are we now your hostages?

MATT ANDERSON:

We saw what you did. I am an investigative reporter and you just killed three secret service and their driver that were going to protect us.

GREG CAMPBELL:

This meeting should not last too long with you terrorists.

JOHN HALLER:

I can certainly feel your frustration and I can see that I am presumed guilty before proven innocent, correct?

KELLY BERO:

Off course you are guilty as you just killed 4 people right in front of us.

JOHN HALLER:

What if I prove to you that US government is the one that killed those four people? What if I prove to you that if it was not because of WSO, four of you would not be alive?

MATT ANDERSON:

Would you mind if I start recording this with my camera in my bag?

JOHN HALLER:

Go ahead

KELLY BERO:

You, you are telling us that this was a set up by our own government and you want us to believe that?

JOHN HALLER:

Yes but I will prove it to you a bit later, but first thing first.

I have a question from each and every one of you?

As they sit down, the server brings drinks and Matt starts recording.

JOHN HALLER:

Can you tell me why you are here?

KELLY BERO:

Simple, you said you will create the third incident if we did not meet you.

JOHN HALLER:

That is correct but before that. Let me rephrase it. What was the reason that all three of you resigned at the same time?

GREG CAMPBELL:

Disagreement with the president's administration.

JOHN HALLER:

OK, but you three resigned because of two words, freedom and the right to bear arms, correct?

KEN JAMESON:

That is correct, but how did you know that? In our meeting with the president; there were no others but vice president.

JOHN HALLER:

And no one else? like chief of staff?

GREG CAMPBELL:

You want us to believe that he is one of your WSO members?

JOHN HALLER

I never unmask or reveal the identity of our members, but isn't it true that you left the administration because of those two reasons?

All three nods yes.

JOHN HALLER:

You see, we are here for the same two reasons.

As Matt is continuing to record, three men start to calm down and be less hostile.

JOHN HALLER:

Second question. Did you see any guns once you arrived here? Better question, did we kill anyone in the past two incidents?

MATT ANDERSON:

Well, you destroyed the refinery and created a lot of damage and horrified us in studio 51

JOHN HALLER:

That is correct but that was to get the administration's attention and get some traction but no one was killed.

MATT ANDERSON:

That is true

JOHN HALLER:

Do you guys think that we need to learn something from history?

KELLY BERO:

I do, I think we all do

JOHN HALLER:

What we learned back in 1861 to 1865 is reappearing in a different shape and form.

We are approaching times that secession is eminent. Each party has it's own agenda that totally differ than the other party. From schooling system, gun control, to LBGQ, BLM,

defunding the police, boarder control,  
and most importantly our freedom.

A server, brings some tea in the room. All four men agreed  
and start to drink tea with a smile.

JOHN HALLER CONTINUES:

I am now going to show you the proof  
of our own government that wanted you  
dead.

JOHN HALLER CONTINUES:

From the time that the calls were made  
to you at the hotel where we discussed  
our meeting place, we knew that the  
calls were being intercepted by NSA or  
national security agency that has no  
right to spy on it's own citizens.  
They recorded the calls and we knew we  
were being spied on. The information  
was transmitted to someone in the  
white house and as we hacked the  
system to trace how far that  
information would go. We notified our  
man in Pentagon that there is a big  
threat from the drone room and let's  
watch the scenes from there.

He turns to the man at the projector and gives him a signal  
to start the tape of what happened in the drone room of  
Pentagon.

Everyone start to closely look at the monitor

JOHN HALLER CONTINUES:

As you see in this transmitted video,  
the drone pilot was tracing the two  
SUV. At the time that there was a  
hesitation as to who sits where in the  
SUV, our man distracted the pilot as  
you see there.

The pilot was told to shoot the SUV  
that he believed you were in it and he  
thought that his mission was  
accomplished. Our man decides to  
scarify his life by killing him and  
crash the drone simply because if he  
did not, you would be the next target  
and not only that the drone would have  
recorded our compound location.

He then sent the following recording and committed suicide just to save your life. The question is who's voice was it that instructed the pilot to shoot to kill four of you and we are investigating that. The name Mrs. P V was used and we are in the process of determining who that is by voice recognition machine, although I have a feeling who that is.

KELLY BERO:

You mean to tell me that you are that sophisticated?

JOHN HALLER:

Sir, in this case we actually tapped and hacked into your FBI computers and simulators to get what we need as we don't have the resources.

GREG CAMPBELL:

It was shocking to see that your own government tries to kill you for a simple disagreement.

JOHN HALLER:

Well, I tried to explain this to you. None of you are safe going back now as they will try again.

KEN JAMESON:

I guess, none of us are safe anywhere.

KELLY BERO:

I agree, but for a minute, let's get back to a long term solution which is secession. The last secession in March of 1861 was about slavery but this one is about two different ideology. Guns and anti-freedom. Last time when a provisional confederate government was formed, it was considered illegal by the united States federal government.

JOHN HALLER:

I like to make a proposition. I like to offer you accommodation here in the compound for your temporary safety weather or not you are willing to be a part of this movement.

We are willing to rescue your families as well and even your close relatives.

MATT ANDERSON:

I don't know if I, myself am a target as well, I have to think about it.

GREG CAMPBELL:

Matt, I think you know way too much not to be a target.

KELLY BERO:

John, what if we decide not to join your movement?

JOHN HALLER:

I will still make sure that you are safe in the compound or I can send a few of our guards to guard the homes that your family live but there is no guaranty for your immediate family's safety. If any government wants a citizen, dead, that person would have a tough time to stay alive. Look, I like you guys as three of you have been victims and you can stay in the compound with no obligations. So think about it and let me know in the morning.

#### SCENE 22 DEMOCRATIC PARTY AND PROGRESSIVES

Senators Scott (NY), Henderson (Majority leader California) and Rosenberg (New Hampshire) on a three way conference call (zoom).

SENATOR SCOTT:

Guys, things are getting out of hand and I like to call for especial meeting to discuss how we can approach the Republican colleagues before we end up splitting the country in half.

SENATOR HENDERSON:

What are you talking about splitting the Country in half?

SENATOR SCOTT:

I will be inviting the members of the house committee on homeland security.

Our national security is at risk right now with all the commotions and the resignation of FBI, CIA directors and Defense secretary.

SENATOR ROSENBERG:

I agree and I hear that the Republicans are also having meetings to discuss a secession, but how do you split the United States?

SENATOR SCOTT:

I suggest that we cross the Isle and meet with the members of the committee on Armed Services.

SENATOR HENDERSON:

I will contact the representatives to make this happen before the President's news conference which is coming up. We are at a point that neither party can continue to function and the American people are just tired to see the Country of going further downhill towards Civil War.

SENATOR SCOTT:

Shall we keep this confidential without any notification to the Whitehouse ? and public?

Everyone notes that the meeting should stay confidential

SCENE 23 MEETING BETWEEN JOHN HALLER AND FORMER OFFICIALS AT THE COMPOUND

JOHN HALLER:

I am glad to meet with you again. I hope that you had a good rest last night.

KEN JAMESON

John, we had a meeting among ourselves and covered the discussion that we had. What do you mean by saying "Join our movement"?

KELLY BERO:

Another words, are you going to use us as a poppet? How would we make a living?

JOHN HALLER:

I fully understand your concerns. Let's start with the safety of yourself and your family and then we can discuss the positions and your rolls.

I thought more in line of safety of your family before you guys think in terms of positions. Although you are not in any position to negotiate, I am open to suggestions.

GREG CAMPBELL:

John, I must tell you that we are in a much better negotiation position than you think we are. Without US, your organization would be stagnated. We can put WSO on the map so we both need each other. We need WSO for protection and you need US to accomplish your goal which looks like it is becoming our goal as well.

JOHN HALLER:

You are 100% correct. So, I suggest that we start to work on a plan to extract at least your close family members in dark hours of the night but prior to that, you need to communicate with your spouses via secure phone lines, ASAP so the US government does not do anything radical.

Matt is continuing to film.

MATT ANDERSON:

I am a Single guy but I've been dating Angelica Heart, another reporter but I think I am ok. I believe, I can be the liaison between you guy, and the government. After all, again I don't believe I am a target.

JOHN HALLER:

Matt, I happen to agree with you but you need to make your own decision. I suggest that you contact her and your family members on a secure line as well just to make sure that she is safe, if nothing else.

KELLY BERO:

You have not covered our exact role in a long term in the WSO as of yet. How do we agree or disagree to something that has not been discussed.

JOHN HALLER:

Yes sir. I have not. I have covered the protection of your family first. I have discussed your role with my counterparts for the second time and we are offering you three the membership in the WSO board of directors which is and will be voting on any related issues concerning secession and new elected Democratic and Republican government.

SCENE # 24 RESCUING THE WIFE AND SON OF FORMER SECRETARY OF DEFENSE

A black SUV, pulls in front of a house in the suburb (night time). The driver, quickly exit the car and knocks on the door. A woman and her teenage son (George) exit the house with two suitcases. Both rush to the SUV and the car speeds up. The driver notices that another car is following him. He stops at the red light.

He turns around and tell the woman and son to bend over so they won't be seen. He then moves towards to the middle of the intersection as he would pass the red light, but he puts the car in reverse and backs up with a high speed (VFX) and hits the car behind, making it impossible for the car behind to make further movement. He then drives the car to the compound as secretary of defense meets up with his wife and son in a very dramatic way.

SCENE #25 RESCUING THE WIFE AND DOUGHTIER OF FORMER FBI DIRECTOR.

A black SUV pulls in front of college as the driver is looking at the college students coming out of the building. He sees the FBI director wife pulling in with her car in front of him. They text each other "I'm here". An 18 year old female college student (Annie) walks up to her mother's car. Her mother gets out of the car and hints her to follow her to black SUV after both take out two suitcases from her car.

Once they both get inside of the SUV, a hummer with two military dressed uniforms pull in front of the SUV and block it. The SUV, jumps the curb (VFX) as other students watching and getting out of the way and goes into the street after bypassing the hummer.

A chase (VFX) between the Hummer and SUV with shots fired until the SUV takes the dirt road towards the compound and loses the hummer.

At the compound, we see the teenage girl has been shot as FBI director meets his wife Jennifer and soon John calls the compound doctor to attend to her as the parents stay in the waiting room. John meets them at waiting room with Secretary of defense and his wife Alicia.

JOHN HALLER:

I am so sorry as we made a big mistake not having these SUV bullet proof and mainly the budget was the issue.

KELLY BERO:

That's OK, it was not your fault. I can't believe that we are in fight with our own government on a political nonsense. My Annie could have been dead.

JENNIFER:

I was there. I saw that they were military police that wanted to kill us, just because we are the family of the former FBI director and my husband is on the opposing party! This is insane.

The doctor walks in as everyone anticipating news, any news.

DOCTOR #1:

I am sorry. We did the best we could. The X Ray shows two bullets lodged into her back near the spine in the areas of L4-L5 but she is OK, but we don't know if she can walk again.

Jennifer starts to cry on her husband's shoulder as the rest including John, try to hide their tears as the doctor leaves the waiting room.

## SCENE 26 GEORGE MEETS ANNIE ON THE HOSPITAL BED

George walks in as Annie is laying in bed.

ANNIE:

Who are you? Another freedom fighter?

GEORGE:

Oh no. My name is George Jameson and I am the son of the former defense secretary Ken Jameson.

ANNIE:

And I am Annie Bero, the daughter of the former FBI director Kelly Bero. I got shot twice during the rescue mission. Good to meet you George. Come a bit closer.

GEORGE:

Yes, I overheard about the shooting and I am so sorry. I also was in a rescue mission.

ANNIE:

So, you know that I can't get up to shake your hand.

GEORGE:

I do. Looks like we are the only two teens in this compound. Is there anything that I can get you?

The doctor walks in as he smiles to take Annie's blood pressure and give her pain medicine.

DOCTOR #1:

Sorry to interrupt as I need to get your blood pressure and give you these pills for pain. What is your pain level from one to ten right now?

ANNIE:

I have pain that changes from five to seven, mainly in my lower back.

DOCTOR #1:

Well, OK. It was a difficult surgery as we removed both bullets from your L4, L5 area or your lower back near S1 but I am waiting for an MRI results to

see if there was any bone damage.  
Until then, I can't have you move  
anywhere except bathroom. It's a fifty  
fifty ...interrupted

FBI director and his wife come in as they see George and  
listening to the doctor.

DOCTOR #1:

Sorry as I should have waited until  
you were here. Let me say that you  
have a very strong daughter that went  
through the surgery perfect. I am  
updating my last report that there is  
a chance that if there are no bone  
damage in the lower spine of Annie,  
through long term physiotherapy, she  
can walk again.

Jennifer burst in cry as both her and her husband gets closer  
to Annie to hold her hand.

The doctor smiles as he exit the door.

ANNIE:

Mom and dad, this is George the  
defense secretary's son. He was also  
in rescue mission.

FBI director and his wife, smile at George

GEORGE:

May I pray for Annie as we hold hands  
together? I am a Christian and I do  
believe in the Power of prayer and  
healing.

ANNIE

Sure George, can you all come closer  
to me and I would hold your hands?

Everyone gets closer to Annie's bed as George starts to pray  
as everyone bows down and holding hands.

GEORGE

Heavenly father, we come before you  
for healing Annie's lower spine right  
now. Our lord and savior, she had  
nothing to do with this incident as  
she was just a bystander in this  
rescue mission..interrupted

John, knocks on the door and comes in and sees all four praying, he gets closer and holds hands with them as well.

GEORGE CONTINUES:

Our lord and savior, our brain is way too little to understand why certain things happens the way it happens. As I pray for Annie....

George, sticks his right hand to Annie's palvet as her parents are watching as to why he is touching Annie in that area.

GEORGE CONTINUE

As I pray for Annie, I transmit the power of healing through my hand right through her palvet and spine and believe that it is being healed and it would show on the MRI that she has no damaged bone or damaged spine. Thank you lord, In Jesus name, Amen.

SCENE # 27 RESCUING THE WIFE (DANIEL) OF FORMER CIA DIRECTOR

A black SUV arrives at a Beverly Hills area at a house and soon the driver notices another car that is also awaiting on the street with a suspicious individual in it. He decides to go around from the back. He knocks on the back garage interior door and a lady opens the door as she was expecting him. Soon the driver notices a man that is holding a gun appears at the garage door between the house and the garage and points the gun to the lady's head with one hand and holds her with the other.

GUNMAN:

Hey, I guess you thought that the former CIA director's wife is ready to be rescued, ha?

DRIVER:

Ok, Ok what do you want?

GUNMAN:

Simple, we all are going to meet up with the former CIA director and you are going to take us there.

DRIVER:

Over my dead body.

Driver charges towards the woman and the Gunman and the Gunman starts to shoot at the driver and by the time the

driver gets to the woman & Gunman, although he was shot several times, the driver jumps on the gunman and start strangling him as the woman gets freed up. He finally chokes him.

Woman rushes to help the driver but she soon see him slowly dying. She cries.

DRIVER WITH BROKEN SPEECH:

Mam, reach out to my pocket take out the SUV Key. The address that you are going to is already saved on GPS, look up the word "Compound". Speed up and don't look back.

The woman soon rushes out to the SUV, turns the car on and speeds up per GPS direction. Two gunmen soon come to the garage and start shooting at the SUV. The driver, slowly gets up, gets the gunman's gun and start shooting and kills them at the garage door and falls dead.

SCENE # 28 CIA DIRECTOR GREG CAMPBELL AND HIS WIFE DANIELA MEET THE FIRST TIME AT THE COMPOUND.

It is a beautiful sunrise scene at the compound when former CIA director and his wife meet as they both cry the joy.

Hours later

SCENE 29 JOHN MEETS THE THREE DIRECTORS AND MATT ANDERSON IN THE COMPOUND CONFERENCE ROOM.

The 5 men (including Matt Anderson) are being served drinks by a female freedom fighter.

JOHN HALLER:

Are you gentlemen convinced that our government intention is to destroy the opposition party and their supporters? We are becoming like Russia and China as the opposite party can and will kill individuals that are against their narratives and agendas.

KELLY BERO:

I never thought that I see a day like this in my own country. Government against people?

JOHN HALLER:

Me too sir, me too. I never thought that I would be a militant helping to restore law in order in our Country. So you know as I never told anyone the story about my family that were murdered in front of me by this administration. They ambushed my car with my wife and two sons in the car, but I knew that I was the target. After all, I am considered a terrorist to them. They sot and killed all three of them but they missed killing this terrorist, but they will soon see what this terrorist is capable of.

All 5 men, put their heads down and moment of silence.

GREG CAMPBELL:

What is the latest out there as we get no news?

JOHN HALLER:

I have spoken with my counterparts in other States and what I am hearing is that this administration has plans to confiscate guns from the citizens by force. Another words, they plan to make several announcements covering Covid shots that would be mandatory and ask general public to voluntarily give up guns except hand guns.

Chief of staff refused to accept the idea but the president insisted that it must happen.

MATT ANDERSON:

What? Are you serious? Where did this information come from?

JOHN HALLER:

I can't reveal the source, but You must trust me on this as my information comes directly from a reliable sources at the White house.

KEN JAMESON:

Our men and women in uniform would never go door to door to do this nonsense. Would they?

JOHN HALLER:

Our men and women in uniform will be the ones as they are brain washed by liberal media.

GREG CAMPBELL:

Right in the open?

JOHN HALLER:

Why do you think that this administration is allowing the illegals come through the boarders? Why do you think that they are immune from Covid shots? Why do you think this administration is flying them to undisclosed locations and the main stream media do not cover any of this? and placing them in the red and swing states to turn the voting results one hundred and eighty degrees in their favor. Why do you think that those illegals will be given legal status for free? And why do you think that this democratic administration is changing the demography of the entire Country so the majority party would be a democratic government for ever.

KEN JAMESON:

So you mean they will be arming them as a backup?

JOHN HALLER:

Yes sir. The illegals will have to return the favor somehow. Don't you think? The illegal kids will remember these images for ever. Remember during Trump administration, they could not enter the Country, illegally? And now, the typical white male or any republican family would be considered an enemy.

KEN JAMESON:

So if any Republican family resist giving up guns?

JOHN HALLER:

You tell me. If you did not allow me and my family to come for a better life and you don't let me to legally take your gun, what shall I do. It will be a shoot out, especially when there is defunding the police movements in blue and purple states.

MATT ANDERSON:

This sounds like a conspiracy theory, not real.

JOHN HALLER:

Really? Why support defunding the police and not have any plan to replace it?. Community policing? Give me a break. All of these things will dovetail together.

MATT ANDERSON:

So you are saying that, this is the grand plan ?

JOHN HALLER:

This has been in works for decades and what you don't see or hear in the main stream media is only a tip of the iceberg of the grand plan. Otherwise, anyone with a logical mind set would understand that the Country is going through ethnic cleansing. Our Country is going through major radical changes and it starts with no boarder control, defunding the police, letting criminals out of jails, not to prosecute criminals for fines of under \$900 and getting the illegals legal status and freebies, just to outnumber the Republicans in the upcoming elections.

GREG CAMPBELL:

Other words, they want the US to run exactly like the democratic States like New York and California.

KELLY BERO:

What is the plan John?

JOHN HALLER:

First, we need to spread the news in the media and social media that we all have made an alliance to fight against the Government that is taking us to the brink of communism since they will force proposals against our constitutional rights.

Second: We need to create a new board of directors to facilitate and support the members of the senate and house of representative regardless of them being democrat or Republican to move towards secession. the transition of two state solution that separate the Republican States from the Democratic States and such a board includes you gentlemen and our commanders in other States. This board will make decisions on distribution of power to two and not one president. Both presidents will continue to reside at the White house and they would select their vice president in a Democratic or Republican presidential campaign in their own states. Only citizens and not illegals should vote.

KELLY BERO:

What you are saying is if we don't do nothing, the country will revert to Karl Marx theory of a society in which all property is publicly owned with few exceptions and each person works and is paid according to his or her abilities and needs. We become a socialism country.

JOHN HALLER:

Yes, and I don't think most of the population understand or see that, coming.

GREG CAMPBELL:

What about the separation of Senate and the house of representative?

KEN JAMESON:

Let me respond to that question, since I am also a scaliar in constitutional law. Presently, there are 435 house members. I assume we can have the Republican and Democratic congress to divide the house and the senate.

The Republican or Democratic house members, once in session will only vote on bills related to Republican or Democratic States. I think, that is the logical way to separate the two sets of States so there won't be any debates between the Republican or Democrats in the midterm election.

JOHN HALLER:

So, how would you pass the republican or Democratic bills through the House?

KEN JAMESON:

In this scenario, I think once the bill passes through the republican or Democratic house of representative, in related states, the bill would go through either fifty Republican or Democratic Senators to be ratified or to be rejected or signed by the Republican or Democratic President, before it becomes a law.

JOHN HALLER:

And let's don't forget the Supreme Court 9 members.

KELLY BERO:

As a former Federal Judge, we do need to have a referendum, state by state in order to reform the Republican and Democratic Supreme Court members. For example, if you have 7 or 9 justices in each court, they would only ratify and vote on cases related in Republican or Democratic States.

There would have to be two sets of supreme courts at the end, since we won't have any conflicts between Republican and Democratic issues. Like Rose Versus Wade which would only apply in Democratic states.

MATT ANDERSON:

And what about boarder control in between the States?

KEN JAMESON:

That is an easy one. I think, there should be one hundred percent Boarder control with Canada and Mexico, but as you enter each Democratic or Republican State, you need to obey by the rules of that State. You can no longer cut in line at the boarder just like you can't cut in line in traffic or for that matter in grocery stores or Mexican boarders with US.

JOHN HALLER:

Off course what we are discussing are just way too sketchy

MATT ANDERSON:

Well, it seems like we are reforming the US Constitution without any votes from the population. Since I have interviewed Democratic senators and I know them, I made notes to send them these ideas at a proper time.

KELLY BERO:

Well, at some point after we have done a referendum, we can send a two State solution proposal through several constitutional attorneys to the Supreme Court, the congress and the Senate to be ratified. I assume, there will be a lot of opposition but there will be an adjustments in multiple sectors of our Country.

JOHN HALLER:

Matt, what can you do in terms of production of a short thirty minutes video to show the general public how we can put WSO on the map?

MATT ANDERSON:

Are we unanimous here guys?

Everyone nods yes

MATT ANDERSON:

OK. I would need to shoot a couple of twenty minutes clips and edit the final to thirty minutes. Since we can't send it by internet, it needs to be smuggled to Angelica, my girlfriend to have her show it on her station.

GREG CAMPBELL:

We need national, not just local exposure. Having been in the intelligent community has it's advantages. I suggest that Matt does the production and smuggle the clip to Angelica but assure her that I know someone very especial that will intercept and hack the TV network and Radio waves and use the Government satellites in order to broadcast it in all 50 States and abroad.

JOHN HALLER:

Excellent idea, but has this ever been done before.

GREG CAMPBELL:

We created a state of the art an emergency broadcast system in order to send emergency information to the public. Once it is triggered, none of the broadcasters can delete it and general public can also watch the clips on the internet.

I know that my friend through his entity will do this if I can ask him but it has never been done before and I know his company will be on a black list if the government finds out. What he would do is freezing regular national programming to show the tape and audio. The broadcast streaming will interrupts all TV and Radio stations.

JOHN HALLER:

I understand that in tomorrow's news conference, the president will announce gun confiscation and enforcing Covid vaccine.

KEN JAMESON:

Well, then we should wait until after we see what happens and broadcast after.

Everyone nudes yes

JOHN HALLER:

OK OK, let's get some rest and we start tomorrow.

Everyone leaves

SCENE # 30 WHITE HOUSE PRESS SECRETARY NEWS CONFERENCE  
ANNOUNCEMENT

PRESS SECRETARY (JENNIFER SACKY):

Ladies and gentlemen, today we have some very important announcements from the president himself. He will come to make the announcements in person, but let me make two important statements before he comes in. The first statement is about Covid Vaccine.

As you know, the vaccine were originally approved by FDA on an emergency use authorization which was not 100% approved. This was done, in order to quickly vaccinate the American people and since Moderna, Pfizer and Johnson and Johnson made the vaccines, there has been multiple variances. Those vaccines would need to be updated and followed by booster shots to cover such variances. The alpha, beta, gamma and delta variants are all considered variants and the vaccine companies are evaluating the latest issues.

REPORTER#1:

Sorry Jennifer to interrupt. Are you saying that the segment of the population that have been vaccinated,

wasted their time and billions of dollars that was spent by Government was wasted due to past ineffective vaccines?

JENNIFER SACKY:

If you let me finish my speech, I can answer questions at the end. Can you wait?

REPORTER #1:

Sure, sorry

JENNIFER SACKY:

The question becomes, how can we protect the Americans that have already been vaccinated from the ones that refuse to be vaccinated? We have been discussing this for a long time and the president will cover this subject when he comes in.

REPORTER#2:

Will the White house put pressure on CDC to announce mandatory vaccination?

PRESS SECRETARY:

Center for Disease Control, will always be independent and we will not put any pressure one way or another as to what CDC will announce.

REPORTER #1:

Would you answer my question now?

JENNIFER SACKY:

Oh yes. Well. No one can predict the future. We need to look at the pandemic frame by frame. Another words, as things evolves, we need to adapt to it. The previous vaccines have helped millions of people based on what we knew about the virus then. We could not have waited until now, based on what we know now.

REPORTER #3:

What is this administration will do about gun control as this has not gone anywhere.

There are more guns and full and semi-automatic being sold every day and your administration has not done anything to stop these Republicans that are making and distributing them.

The president enters the stage followed by the chief of staff and enrage as everyone gets up and claps. After a few minutes, everyone sits down.

PRESIDENT (JOSEPH BALDAN):  
Thank you for gathering tonight in this press conference as I reveal several important items. My chief of staff has arranged the timing so that most networks will cover this news conference tonight. Let me start by saying that by now, we have the majority of the population vaccinated. And regardless of how many public announcements we have made to get one hundred percent of the population vaccinated, it is not working. For that reason, I have no choice to use my executive order to vaccinate the rest of the population on a mandatory basis. We will ask the governors to mandate the businesses to either take customers and clients that are vaccinated or face closures. This would include Federal and State buildings, restaurants, churches, office buildings, malls, airports or any profit or nonprofit businesses.

REPORTER #1:  
What ? Are you kidding us?

JOSEPH BALDAN:  
One more word out of you, you will be escorted out.

We will give the rest of the population a period of not more than thirty days to get vaccinated.

We have been working on a very tiny smart chip that would be implanted within the forearm of the Americans that gets updated every time the person gets the updated shots.

We have also been working on especial scanners that would be introduced to the businesses and will be given for free in order to scan the clients and customers of the businesses before they enter any premises, as they have to be vaccinated. Until then, we will be requesting the local police department, sheriff officers and US Marshals with the cooperation of mayors to start knocking on doors in certain neighborhoods on a random basis to encourage the un vaccinated people to take the shots. We can no longer take a risk allowing those people to danger the lives of rest of us.

REPORTER #2:

Mr. President, will the smart chip that you are referring to and the scanners, will become mandatory for all private and public places? And what about the civil liberty rights of people that oppose to it?

JOSEPH BALDAN:

This virus is a killer and it is invisible and it could hit us again and again. For those reasons, we need to only allow businesses that are in compliance to be operating. We will fine and punish allow individuals that fake vaccine passports or show made up proof of vaccination, come on man.

REPORTER #3:

Mr. President, what if the homeowners refuse to respond and can't show the proof of vaccination? Are they forced to take the vaccine? And if not, they will be apprehended?

JOSEPH BALDAN:

Let me answer this question after I announce my second executive order that I am intending to sign and that is gun control. For years, the Democratic Party and NRA or national rifle association have been enemies as they would not agree to stop promoting

semi and full automatic weapons and misleading info commercials. No more!

After this announcement, our relationship will even get worst. My executive order will include confiscating any and all guns aside from hand guns like nine millimetre with six rounds for protection only. No hunter uses semi-automatic AR 15 or comparable guns to hunt and kill animals. This has been an excuse for killers and murderers to kill innocent people.

Further, we will be placing limits on number of guns that are being made by gun manufacturers. We would need to control the gun inventory from now on.

REPORTER #1:

Mr. President, you sure like the word control, don't you? Controlling everything to get US towards socialism. Sir, you are taking away our second amendment by taking away our guns. We should invoke the 25th amendment as you are incompetent. It is unconstitutional and ..interrupted by President..

JOSEPH BALDAN

Please remove this reporter that keeps interrupting me.

Reporter #1 gets escorted by White house police as he is shouting.

REPORTER #1

"you can't do that". "you can't do that..it is unconstitutional".

JOSEPH BALDAN:

As I was saying. I will give the clearance for national guard to protect the US Marshals and police officers to randomly knock on doors and ask two simple questions. Question #1, Can we get a copy of your vaccine card?

Question #2, Do you have any guns other than permitted pistol or handgun in the house? If the authority suspect that the individual is lying, no search warrant is necessary to enter the home and search and confiscate.

REPORTER #4:

Mr. President, do you not plan to get the congressional approval for this? After all, our fourth amendment reads "The right of the people to be secure in their houses, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

JOSEPH BALDAN:

It is now become the national security that I am worried about both for health and spirit of our country and taking away the weapons of murder. There were 14,400 gun-related homicides in 2019. Killings involving a gun accounted for nearly three quarters of all homicides in the US in that year. That's a larger proportion of homicides than in Canada, Australia, England and Wales, and many other countries. Do you know an international comparison of gun related killings as a percentage of all homicide is highest in US than anywhere else? How about 73% here versus 4% in England ? There are more than 393 million civilian-owned firearms in the United States, or enough for every man, woman and child to own one and still have 67 million guns left over. That is 120 guns per 100 residents.

REPORTER #5:

Sir, are you suggesting that the feds could without any warrants enter the citizen's homes and not only confiscate artillery but also force

the residents to take the vaccines?  
Against their will?

JOSEPH BALDAN:

Well, we would have a cool off period of 60 days for voluntarily giving up the artilleries and AR 15 and assault weapon and 30 days for mandatory vaccination.

REPORTER #5:

And if the resident does not comply with either?

JOSEPH BALDAN:

In that case we would collect the weapons by force and apprehend the resident until he or she get vaccinated. Listen man, we will not risk the lives of vaccinated people nor we will tolerate the school and mass shooting in our administration, any more.

REPORTER #5:

Mr. President, tonight you have initiated a cold civil war in our Country, you can't get away...

interrupted by security and escorted out.

REPORTER #6 (FEMALE):

Mr. President, it looks like these rules only apply to Americans and not the illegals that are purring to this Country. Why is it that those illegals can come in to this Country without any vaccination and get to fly to different parts of the Country? Especially to **red and not blue states?**

JOSEPH BALDAN:

I have no idea how you could mislead the American people. None of that is true.

Interrupted by Reporter #6

REPORTER #6:  
Are you denying this Mr. Presi...

gets interrupted by security as she gets escorted out

JOSEPH BALDAN:  
AS HE POINTS TO THE CAMERA:

My fellow Americans, my intention is nothing but keep you safe. Keep you safe from the unnecessary guns out there and the deadly and invisible virus. Those of you that disagree with my executive orders need to understand that we have no other choice to keep our population protected. This nonsense about civil war is the conspiracy theory being built by the Republican party. I wish you a safe evening, good night

SCENE #31 VIOLENT SCENES ON THE STREETS

We see scenes of multiple looting on the streets. We see policemen with national guard at people's doors, knocking and asking questions. We see fights in neighborhoods and protests between citizens and law enforcement.

Knock knock Two Police officers knock on the front door. Home owner opens the door.

HOME OWNER (WHITE - OCCASION)  
Yes, can I help you

POLICE 1  
Yes sir, we are here to randomly ask the neighbors if they have taken the Covid vaccine. Have you?

HOME OWNER  
No, and I am not planning to

POLICE 1  
And why not

HOME OWNER  
Well it is none of your business, is it? But since you asked and I respect the Police, I'll tell you. The vaccine is not a full poof drug.

It is experimental and that is why FDA approved it on an emergency authorization basis. Further these vaccines are only 50 to 60% effective, which means it does not cover other variations of Covid, coming up.

POLICE 1

Sir, what about the rest of your family?

HOME OWNER

If I don't take it, they won't neither.

POLICE 1

You have two options sir, we serve you a 30 day notice for you and your family to get vaccinated and you need to sign the 30 day notice as we will be coming back to check or we will take you right now to a Covid center to get vaccinated or if you refuse, we will take you to an undisclosed location where un vaccinated people should be.

Home owner closes the door and locks it. Police knocks again, breaks the door down and the 2 police officers forcefully put handcuffs on the man and take his wife that's screaming away to the police car.

SCENE # 32 TWO POLICE OFFICERS KNOCK ON A SUBURB HOUSE - BLACK HOME OWNER OPENS THE DOOR.

HOME OWNER (AFRICAN AMERICAN)

What you all want?

POLICE OFFICER 1

We need to see your vaccination passport, can we come in?

HOME OWNER

NO YOU CAN'T, WAIT HERE I'LL BRING IT.

Home owner comes back and shows the vaccine card to the police.

POLICE OFFICER 2

Oh by the way, do you own any semi automatic weapons with or without a permit?

HOME OWNER

No I don't

POLICE OFFICER 1

Do you mind if we search the house?

HOME OWNER

What? Show me your search warrant first.

POLICE OFFICER 2

Haven't you heard? It's the law now. We have the right to search for any types of weapons anywhere without a search warrant. So step aside

HOME OWNER

OK OK I'll wait for you here, after you search my house. Go ahead, help yourself.

As the police officers move towards the bedrooms, the homeowner goes to the kitchen, opens the top cabinet and takes out a gun. He hides it, and goes back to the living room and follows the two police officers until they finish and go outside. Home owner follows them outside.

HOME OWNER

Hey look here!

As the two police officers turn around, he shoots both of them in the front yard. One police officer calls for back up. Soon back up police car and news reporter show up at the house. The home owner waves the gun to the backup police cars. As the news camera is filming the back up officer, they start to shoot the homeowner until he falls on the ground. The news reporter Angelica quickly runs toward the homeowner and asks.

NEWS REPORTER (ANGELICA)

Why sir? why?

HOME OWNER

No one is above the law. Including the president. I had a permit for my gun. I shot the two officers because they had no right to come into my house without a search warrant.

He dies as Angelica watches him. Angelica looks at the camera

ANGELICA

Look Mr. President, look what you did. You are the reason and responsible for this man's death in front of me. He had nothing to hide. He was forced to give up his gun that he had a permit for. He killed two innocent police officers that were caring out your order. You killed three people not just one. You are taking this country to the brink of a civil war. One shoe has dropped already. You will be dropping the second shoe. Your administration is pushing to force Americans to take the vaccine or go to prison and give up their guns against our constitutional right on the second amendment.

SCENE #33 STAND OFF BETWEEN TWO POLICE OFFICERS POINTING GUNS AT TWO OTHER POLICE OFFICERS SITTING IN THE POLICE CAR

A police car with two police officers is held hostage in a black neighborhood as two other police officers are holding guns and ready to shoot the other two officers in the car.

POLICE OFFICER 3 (AS HE IS SHOUTING)

If the news reporter is not here in 15 minutes, they are dead.

The news van pulls in. The news reporter gets out and holds the mic close to the officers face.

NEWS REPORTER

Sir explain, you are a police officer and you want to shoot the other officers?

POLICE OFFICER 3

There are two types of police

officers. First type supports the president and wants to confiscate guns and put people in prison if they are not vaccinated. Second type is me and my colleagues that Warned them to stop or they will get killed by us. These two have confiscated multiple guns and killed home owners because of not willing to be vaccinated. So I like you to show their execution by your camera. See their execution now.

The news camera turns to the police car and soon multiple police officers outside of the car start shooting.. until they shatter the windows and kill both police officers.

SCCENE # 34 PRTESTOR'S SCENES

Angelica standing in front of a crowd and listening to the protesters.

ANGELICA:

What do you think about the president's speech?

PROTESTER #1:

I agree. I am vaccinated and I don't want to be sitting next to any un vaccinated person, in the bus station or plane or stadium

PROTESTER #2:

How the hell he wants to confiscate the semi-automatic guns from the older people that want to protect themselves? We can't go and learn shooting with a gun and if we miss, we are dead. How the hell he wants to continue being a president and ignore our second amendment right?

PROTESTER #3:

Is he kidding us? Putting smart chips in our body? This is slavery. Who will monitor our moves and our whereabouts? Our government? We might as well leave this Country and I hope he resigns or should be impeached.

## SCENE # 35 VOLUNTEER SCENE FOR SMART CHIP

There are newspaper ads on the street needing volunteers to test the futuristic smart chip (VFX). It states that volunteers will be well compensated in a clinical trial.

## SCENE # 36 VOLUNTIER AND DOCTOR IMPLANTING SMART CHIP

A doctor in uniform is consulting a volunteer

VOLUNTEER (RANDY)

I was told that the smart chip that you will be implanting per the presidents order will only prove that a person has or has not taken the vaccine and it gets updated with vaccine shots. Is this true?

DOCTOR #2

My job is to implant this chip as you see it into your arm, with a bit of pain so when you go to any government agency, buses, planes, trains or private business you don't have to show a vaccine card.

RANDY

This looks very small, but I still am wondering, if this administration is trying to force business and government facilities to only admit people with a smart chip? or not.

Doctor#2 goes towards the door. She goes around the room and starts taking out several small hidden microphones as she shows then to the volunteer.

DOCTOR #2

My office is bugged and they control what we say. That is why, I took those bugs out temporarily so we can talk. You did not hear this from me as I will lose my job. Promise me that.

RANDY

You have my word.

DOCTOR #2

This administration would want every American to be tracked, not just for Covid vaccine but for every other purpose.

RANDY

Like for what?

DOCTOR # 2

Anything and everything in your life, starting from your marital status, your health records, your diseases, your intentions, your financial status or even your political preference.

RANDY

But how would this little chip contain all that info? How would you feed the updated data into the smart chip and what if the person takes it out

DOCTOR #2

This procedure is a part of the new World order. Once it is implanted it will be a crime if you tamper with it or remove it. It gets tracked and once removed you maybe picked up by the feds as it has GPS. The information gets continuously updated and transmitted to your chip every time you are on your cell phone, computer or internet. The new information gets picked up by the government as you walk through the streets to your office and other businesses. As you go to places the information gets updated by public transmitters that are installed everywhere in the City. Also you get paid for keeping it on till you die. Don't know how much though yet. As of now, only over 46% of the population is wearing it, and all government facilities will be using scanner machines to track and follow people. Eventually, If you don't have a chip, you cant get in anywhere. As a matter of fact you'll be arrested.

RANDY

What about private businesses, restaurants, movie theaters, medical offices, national parks even fitness gyms?

DOCTOR # 2

Well I understand that they will be given a short time to place chip scanners and if the businesses don't force their employees implement it they will be shutdown.

RANDY

But doctor, who in the government will have access to this information.

DOCTOR # 2

They will create a separate department within the NSA to monitor everyone.

RANDY

So the NSA will control our lives?

DOCTOR # 2

Corrections, Government controls NSA and NSA will control us.

The Volunteer gets up hugs the doctor and leaves the session

SCENE #37 COMPOUND PRODUCTION OF 30 MINUTE VIDEO

John and other directors and Matt Anderson are producing a thirty minutes clip to be sent to Angelica which to be transmitted to multiple TV, Cable and Radio stations. Their wives are present as well. Matt is using his camera and sound boom to record the 30 min video.

Camera- action

GREG CAMPBELL:

I am the former director of Central Intelligent Agency along with former defense secretary sitting to my right and former FBI director that is sitting to my left. All three of us due to a political disagreement at the White house were given a chance to resign or to be fired by the president. We all decided to resign.

We had no idea that our government would turn on us on a murder plots. There was a killing plot by our own government against us and our families. We were not plotting against our government to deserve to be killed along with our family. We were then rescued by WSO founder and his freedom solders.

KELLY BERO:

As a former FBI director, we are creating this short video to explain to the American people that our government and our president is soon taking us to a brink of Civil war against one another. The American eagle that once used to use both right and left wings to fly, can no longer fly. It is wounded. It may never fly again.

KEN JAMESON:

I was the defense secretary that called the president on our constitutional rights. No president in the last 245 years has ignored the constitution that we have enjoyed and we are going to do something about it. This is not about the Republicans against the Democrats or vice versa, this is about right or wrong. We will be formulating a solution that would work for all of us and we hope that the American people would trust the American system to pull through and wait for that solution. Please resist any force vaccination, gun confiscation or shooting law enforcement as they can't underestimate the power that American citizens have against the Federal, State and local law enforcement.

We are advocating a separation between the republican and democratic states. we are advocating secession.

## SCENE # 38 MATT ANDERSON, JOHN HALLER AND CIA DIRECTOR

John and Matt are discussing how they can get the tape out to Angelica for World Wide Broadcast.

MATT ANDERSON

John I can't possibly explain all these to angelica over the phone.

JOHN HALLER:

Matt, the integrity of our mission will be compromised if we don't show the tape to the American people and the world.

MATT ANDERSON

I know that but how do we do this?

GREG CAMPBELL

All I need is for angelica to broadcast from her station so then I can request my friend to intercept the transmission and use our tape and send it to all news stations.

MATT ANDERSON

John, take me to Angelica or bring her to the compound so we all can explain what needs to be done.

JOHN HALLER

Taking you out there with the tape is dangerous. I need to set up a kidnapping scenario.

MATT ANDERSON

What? Kidnapping my angelica?

JOHN HALLER

Yes Matt. Because she needs to go back to the station. What we need to do is to create a kidnapping Scene, and unfortunately against her will in order to bring her in here and send her back out there with the tape.

## SCENE # 39 KIDNAPPING SCENE

Two guys pull up with an unmarked van in front of the T.V. station as Angelica is about to leave the station.

One of the two men approaches Angelica and use cloth with Chloroform to put on Angelica's mouth, until she become unconscious.

As other people watch them, two men carry Angelica and put her in the unmarked (license plate - covered) and they take off.

They arrive at the Compound.

## SCENE # 40 ANNIE'S MRI RESULTS WITH DOCTOR # 1, GEORGE, GEORGE'S PARENTS AND HER PARENTS

The doctor calls FBI director on the phone from his office.

DOCTOR # 1

Sir, I now have the results of the the MRI on Annie. Would you and your wife meet me at Annie's room in about fifteen minutes?

KELLY BERO

Tell me now, don't put me in suspense.

DOCTOR # 1

Sir, I can't. Your doughtier has to be present and besides, it is a very unusual results.

FBI Director (VO), signals his wife Jennifer to get ready so they both rush to meet the doctor in Annie's room as she still is laying in bed. She sees her parents walk in with the doctor.

ANNIE

Oh no. What's up you guys?

DOCTOR # 1

Annie, I invited your parents to come so I can go over the MRI results.

ANNIE

Good or bad, I want George to be here too, so please call and invite him over.

DOCTOR # 1

Ok. I heard that he prayed for you, so I figured he should be here as well, so I invited...interrupted

George walks in as Annie smiles and Annie's parents look at each other.

GEORGE

I was told to be here. Is everyone OK with this? I also invited my parents (former defense secretary and his wife).

Soon, Ken Jameson and Alicia walk in as they look at each other. Both parents smile at each other.

DOCTOR # 1

Well, looks like we have everyone here now and I hope we are not missing anyone (jokingly!)

Let me start. When Annie was brought over, she had two bullets in her lower spine in near L4, L5 and S1 as you know, which is the tail end of the spine that connects to her pelvis. We took an x ray and what I saw was either shattered bone or a fracture and I knew that we didn't have the facility to do the type of surgery that was required, although, we did remove the bullets.

KELLY BERO

Why did you not tell us that?

DOCTOR # 1

I should have, however after we took out the bullets, we wanted to wait and see if Annie recuperate on her own from the surgery. Before she came out of surgery, the second x ray showed small fracture and that is why I indicated that she may not walk again. Recently we received an MRI machine so I decided to use it for the first time on Annie. I expected to see the same fracture, but. Interrupted.....

ANNIE

George, come here and hold my hand.

George, looks at her parents and his and gets closer and holds Annie's hand.

KELLY BERO:

Go on please. I hate to be in suspense so long.

DOCTOR # 1

Well, I saw the images last night and I could not sleep the whole night. This morning I double checked to make sure that the images are from Annie and yes, they are.

JENNIFER

and ?

DOCTOR # 1

I compared the ex Rey images and I saw the area where the fracture was but the MRI images on the 3 D shows no fracture, no broken bone or any issues with the spine in L5 S1 area. The tissues where the bullets were in, shows as wounds but Annie's spine looks exactly the same as before she got shot.

Annie, burst in tears as George bends over to hug her. Soon, Annie's mom gets close to her followed by her dad as they all hug together.

DOCTOR # 1 AS HE HAS TEARS

This is a miracle as logically, there should have been bone fractures, so Annie can now start exercising slowly so eventually walk as before.

George, gets closer to his parents and hugs them.

GEORGE

I said, I believe in power of prayer. I can't see any other reasons for what happened. This is truly a miracle.

ALICIA

We both are proud of you George.

## SCENE 41 MEETING BETWEEN REPUBLICAN SENATORS

A second underground senator meeting between senator Joseph Kennedy senator Ron Johnson and senator bill Anderson

SENATOR JOSEPH KENNEDY

The warnings are out there, the other shoe is about to fall. We are very close to a civil war and we must do something about it.

SENATOR RON JOHNSON

(MINORITY SENATE LEADER)

As the minority leader in the senate, here is the problem with democrats. From the boarder control they have no respect for title 42 where the illegal aliens must turn around and go back due to health reasons. Most of the law enforcement are pro republican and I think since the president is totally ignoring the first and second amendment in the constitution we need to produce a bill to give the law enforcement the authority to stop any illegal and ask for their legal documents in any fifty States and if they don't have it, just detain and deport them . We have to enforce the laws that is on the books.

SENATOR BILL ANDERSON

Forget introducing this bill as the democrats won't allow it to pass. We need to put the word out to reiterate that our constitution shall still support us. Let our law enforcement to take the laws in their hands to deal with those illegals or otherwise we will soon need to answer to Mexican president due to this invasion.

SENATOR RON JOHNSON

I agree, we need to do this as more and more illegals are coming from all over the World including Haiti, Afghanistan and South America and dems have no intention to allow Americans to use voters I'd.

SENATOR JOSEPH KENNEDY

Soon Columbia Will be a state and the  
dems will appoint two other senators  
to make the senate imbalance.

SENATOR RON JOHNSON

All signs are towards big government  
and free tuition and health care which  
will push us towards socialism and  
narcissism.

SENATOR JOSEPH KENNEDY

With everything that is going around  
us, we have two options. Option one is  
to be diplomatic with the dems and  
make a deal with this president and  
administration to create a two state  
solution. Or we fight the  
administration which leads us to a  
civil war.

#### SCENE 42 SECURITY BREACH AT THE COMPOUND

It is evening at the compound. Security is covering the  
compound as two mask individuals sneak in with guns. They go  
around security and enter an area where defense secretary and  
his wife, FBI director and his wife, and CIA director and his  
wife are sleeping.

They pick the lock and enter in the FBI director room where  
they trigger a silent alarm. John Haller hears the alarm and  
quickly gets up and picks up his knife and silent gun. As the  
two intruders open the door to FBI director's room, one  
raises the semi automatic gun and points to the bed to kill  
the couple. John arrives right behind them and throws the  
knife at him as the mask man falls. The other mask man turns  
around only to get two shots in both legs. FBI director and  
his wife wake up and horrified. They get up to watch the  
scene. John gets closer to the mask man and waits until two  
security personnel rush in.

JOHN HALLER

Sorry these two intruders somehow got  
into our compound please go back to  
sleep.

John orders the security to take the body of one man and take  
the other man to the interrogation room as night turns to  
day.

SCENE # 43 INTERROGATION ROOM JOHN HALLER, FBI DIRECTOR AND  
MASK MAN (JERRY ADAM)

Inside of a dirty tent, the mask man pleading for help as he has been shot in both legs. John and a few security guards surrounding him with the FBI director. John Approaches the mask man and takes his mask off.

JOHN HALLER

OK, ugly face, I have no intention to take those two bullets out of your damn legs unless you tell me who sent you and what was your mission.

JERRY ADAM

It'll never happen

KELLY BERO

Why did you want to kill me and my wife. Why!?

JERRY ADAM

Because you betrayed your country and became a terrorist just like this punk.

JOHN HALLER

You know what? I changed my mind. I feel bad for you, because you have so much pain. And I feel worse cause I shot you twice.

John takes out his knife and swings it in the air and gets closer.

JOHN HALLER

You know, I will give it a try and get your bullets out but there is only one problem. I've never done this before.

John Orders the security guard to use masking tape to cover the masks mans mouth as he gets closer to him. He inserts the knife on the masks man's right leg and pushes the knife all the way in where the bullet is. The mask man screams through the tape over his mouth.

JOHN HALLER

Oh I'm sorry let's try this again. I am a bit rusty. Now maybe I need to practice on your left leg first.

John takes out the knife from the right leg and inserts it into the left leg and pushes it all the way in.

JOHN HALLER

Oops I think I pushed the bullet in more.. ha!?

The mask man nods and shows signs of wanting to talk.

John asks his security to take off the tape as the mask man starts screaming with lots of sweat.

JOHN HALLER

You talk and you will tell us who hired you. Where did you get your instructions to kill the former directors or we go back on me practicing again to take out your damn bullets, but you know what? I keep forgetting that I'm supposed to pull out the bullets and not push them in. I will get this sooner or later so you better talk quick.

JERRY ADAM

Promise me that if I tell the truth you'll protect me. Because they will kill me if you don't.

JOHN HALLER

You have my word. But if your story doesn't check out, you will be a dead man.

JERRY ADAM

Me and my partner are anonymous subcontractors for the CIA special forces. We were hired and have been given instructions to find your compound and kill the FBI, CIA and defense secretary and their families as they don't want your WSO to become a threat and a challenge to this administration.

JOHN HALLER  
Who? Who ordered this?

JERRY ADAM  
I can't tell you this.

JOHN HALLER  
OK let's do another operation. Put the  
tape back on his mouth.

The mask man pleads but security puts on the tape over his mouth. John takes a gas flame canister and starts to heat the knife.

JOHN HALLER  
You know we don't have any anesthesia  
in the compound, sorry for that. I  
want to make sure this knife is fully  
sterilized.

As the mask man and FBI director look another way, John puts the hot knife on mask man's wound as everyone covers their nose from the smell of burning skin. As the mask man is screaming, john continues.

JOHN HALLER  
I just need two pieces of information.  
One is who sent you and who are the  
people that know where this compound  
is.

Jerry Adam nods again.

JOHN HALLER  
This is your final chance. if you  
don't talk I will lodge the knife in  
to your heart.

Jerry Adam nods yes. Security takes the tape off his mouth.

JERRY ADAM  
OK OK no one knows were the compound  
is. We were scouting the forest and we  
lost radio contact. We then got lost.  
Our transmitter battery died so we  
never got the chance to report the  
location of your compound.

JOHN HALLER  
So far so good I need to know who  
ordered the mission. I need a name.

JERRY ADAM

All I know is the instruction came from the top. I'm guessing from. The present Chairman of the joint chief of staff through the present CIA director. Rumor has it that there is a possibility that the vice president is hoping to create a que against the president. I also understand that the white house chief of staff is lenient towards what you guys are doing. Now can you set me free after taking those bullets out.

JOHN HALLER

Not so fast. I need to verify this information. But in the mean time you will be in our military hospital under surveillence but we will take out the bullets if your story is true.

JERRY ADAM

I'm sorry. I'm so sorry.

SCENE # 44 THREE DEMOCRATIC SENATORS

A confidential meeting between three democratic senators Tim Scott, Charles Henderson and Bernie Rosenberg.

TIM SCOTT

Did you guys know that the president was going to ignore the Civil liberties and constitution when he announced his executive order in the news conference?

CHARLES HENDERSON

Being the majority senate leader from California has it's advantages and disadvantages. In this case, I was not informed. I think he is frustrated as we can't get anything done in the senate and we are in a grid lock.

BERNIE ROSENBERG

I saw the scenes around the country. It is our party's fault that approved the law enforcement to enter people's homes to force people to vaccinate and confiscate their weapons.

Let's face it. It is our party that is responsible and the president is the leader of our party.

TIM SCOTT

It is time that we look at this as an American issue, not Republican or Democrat's issue. We have been hiding behind the main stream media and we are so so lucky to have New York Times Washington post, La times, CNN, NBC,CBS, CNBC, ABC, on our side and all they have is fox.

BERNIE ROSENBERG

So what are you saying?

TIM SCOTT

What I am saying is, us democrats have giant tech such as Google Twitter Facebook Amazon that helped our party to win in 2020.

BERNIE ROSENBERG

Again I ask, what do we do?

TIM SCOTT

I don't know, I really don't know. What I do know is if we don't do anything we will be In a civil war and we lose the faith that American people have in us as their representatives.

CHARLES HENDERSON

In such a short period of time we lost three ranking members of our intelligent community and they must have joined WSO. They are not dummies. They used the symbol WS to through us off but I know this WSO organization. They never meant any harm in the past.

BERNIE ROSENBERG

The question is, what are our options? The way I see it, is to fight the republicans or have a sit down meetings with them, including senate minority leader and see how we can survive working with each other. Maybe just maybe we should live under two but not one state solution.

CHARLES HENDERSON

I agree with that. The American eagle needs to fly again. It needs both wings.

SCENE # 45 MEETING WITH THREE FORMER INTELLIGENCE DIRECTORS

JOHN HALLER

Guys, I believe I found out the individual that ordered your death sentence twice. Once with using the drone and the second time with the CIA sub contractors.

Do you guys remember when we watched the tape of our informant that reported blowing up the second SUV, thinking that you guys were in it?

KELLY BERO:

Yes I do

JOHN HALLER

Well, the instruction per that tape as we heard came from a female.

The drone pilot referred to her as PV. When I interrogated the CIA sub contractor, he said that the rumor has it that his instructions came from the VP. I think it is our Vice President that not only wants you dead, but also to eliminate this president to take the power. Our voice recognition machine just confirmed this today.

GREG CAMPBELL:

Is that all the proof you have John?

JOHN HALLER

Well, our Chief of Staff happens to be one of our people and is playing both sides. I did not trust you to tell you this at the beginning with certainty but I do trust you now.

The VP's only motive is to do this under the name of the president to have a much better standing when she takes power.

SCENE 46 ANGELICA MEETING MATT ANDERSON AND JOHN HALLER AFTER  
THE KIDNAPPING IN A COMPOUND ROOM

ANGELICA

Matt, Matt I missed you. What is going on? Are we all kidnapped by these terrorists?

MATT ANDERSON

No honey, no

ANGELICA

What do you mean, no? I was kidnapped by two terrorists and brought here.

MATT ANDERSON

Let me explain.

ANGELICA

Please do, as I am confused and terrified right now.

MATT ANDERSON

What I am about to tell you will blow your mind. First thing first. We are not being held against our will. At first, I thought that we were going to be killed by WSO, but it turned out that WSO ended up saving us from the killing plot by our own government.

ANGELICA

What? Are you crazy? Did they brain wash you? Our own Government had a plot?

MATT ANDERSON

Angelica, as I said, what you are hearing will take time for you to understand and digest, so let me continue.

ANGELICA

OK, go ahead

MATT ANDERSON

I saw the proof of a tape with my own eyes, that our Government wanted to kill all three former intelligent directors, simply because they disagreed with the President on his

administration policies.

My Angel, the Vice President is the one behind this and soon she will invoke the 25th Amendment.

The President is in a hot seat as well because as you know and you have reported, he is planning to take away our freedom of speech and our guns.

John Haller walks in the room after he knocks. Angelica, gets up and runs towards John and slaps him.

ANGELICA

You are the one, I heard, you are the one that ordered your men to kidnap me.

MATT ANDERSON

No no no Angelica

Matt, gets up and holds Angelica as John restrain himself.

MATT ANDERSON

Please Angelica, sit down. Let us finish explaining before you jump into conclusion.

JOHN HALLER

Matt, that's OK. I understand her frustration so let me cover a few things for her as she has the right to know why we did this.

MATT ANDERSON

Go ahead John

JOHN HALLER

Angelica, I am one of the commanders of WSO or World Safe Organization. We have fought under ground for years for freedom of American people and we have very high contacts. We helped your boyfriend and three former intelligent directors to not get killed on a plot by this administration.

ANGELICA

Why? did Matt do something that I don't know anything about?

JOHN HALLER

No, he did not. He happened to be driving the three directors to our Compound for a meeting to prove that WSO is a legitimate organization. A drone pilot at the pentagon, was ordered by the Vice President to blow up his SUV but our informant was able to intervene or otherwise Matt, along with the other directors would have been dead by now.

ANGELICA

Then, why was I kidnapped?

MATT ANDERSON

Angelica, WSO interest is to make sure that United States does not get into a Civil war. We have had several meetings that were taped in order to show to American People that this administration will continue to ignore the constitution and we will definitely end up in a Civil War.

ANGELICA

I still don't know, why I was kidnapped?

Behind the closed door, Alicia, George, Jennifer, Annie along with Daniela are ease dropping to the conversation without being noticed.

JOHN HALLER

It was my idea to kidnap you and take you away from that environment in order not to jeopardize the mission. We need you to first be convinced that we are real and second, we need you to transmit that tape through your station and Matt will show you the tape after this meeting.

You have seen the chaos on the street, right? you reported it.

ANGELICA

I do agree that the course that this administration is taking will lead us to a Civil War, but you think that with my station to show this tape, the problem will go away?

JOHN HALLER

The administration knows that I am in the compound and that we are not holding the three directors hostage. Your mission, if you choose to accept is the safe delivery of the tape and transmitting it.

Our responsibility is to notify and inform the American people. We could not have come to you to cover these things, that is why I had no choice to create a fake kidnapping so that we can safely send you back and show that you escaped.

ANGELICA

First, I like to meet the directors and see the tape so I know, this is real and if I do, I will be glad to help and transmit the tape and notify the American people. I am a journalist and an investigative reporter and that is my job and I love my boyfriend.

Angelica looks at Matt passionately

JOHN HALLER

Matt, please go ahead and introduce her to the directors. Please show her the tape.

Angelica, if you accept this mission, Matt will send you a coded text of a specific date and time of the transmission. Your broadcast will be intercepted and will be forwarded to all radio, TV stations for the period of the transmission, the internet will be interrupted as well for everyone to see the facts nationwide and maybe Worldwide.

Matt, gets up and goes towards Angelica as John looks at them curiously as he kneels down and takes out an engagement ring.

MATT ANDERSON

Angelica, my Angel. I've been waiting for a long time to ask you to be Mrs. Angelica Anderson, will you ?

Angelica, tries to hold her excitement and tears.

ANGELICA

Oh, no. I can't accept this Matt, not right now?

She then turns around and walks towards the door and opens it. She sees everyone and blinks at them. Angelica, turns around and runs toward Matt, takes the ring and puts it on.

Alicia, George, Jennifer and Annie along with Daniela walk in the room.

ANGELICA

I was just messing with you. Off course, I like to be your wife.

Everyone claps with tears.

SCENE # 47 ANNIE AND GEORGE IN THE GYM

As Annie is trying to slowly get up from her bed, she tries hard to reach out to get on the wheelchair but she misses and falls down, as George happens to walk in. George, reaches out to her and helps her to get up and carries her to the wheelchair as Annie smiles.

GEORGE

My God Annie, you could have called someone.

ANNIE

I know, I didn't think I fall. Now that you are here, can you take me to the little gym they have here?

GEORGE

Off course Annie

George takes Annie to the small gym and helps her, to slowly get up on a treadmill. Annie, slowly starts to walk at a very slow speed as George is right behind her on the treadmill, holding her (not in a sexual way).

Her parents (FBI director and his wife) happen to walk up to the gym's door but as they see their daughter through the glass door, they don't go in as they smile and look at each other.

SCENE # 48 CHIEF OF STAFF AND JOHN HALLER ON THE PHONE

WHITE HOUSE CHIEF OF STAFF (ED HEART) ON THE PHONE WITH JOHN HALLER AT HIS HOUSE.

ED HEART

John, this am, I walked into the Vice President office and left a few miniature cameras and microphones without being noticed. She is having a meeting with her lover, the Chairman of the joint chief of staff Dan Broady tomorrow and I understand it is about the latest developments.

JOHN HALLER

Are you sure that we are on a secure line?

ED HEART

Yes. I am using my neighbor's phone. And by the way, I think they have a sexual relationship based on the way I have seen them act.

SCENE # 49 SEX SCENE BETWEEN MATT ANDERSON AND ANGELICA

We find Matt and Angelica in a room within the compound. As Matt is watching TV, Angelica comes out from shower with a white robe, bare foot. She stands in front of the bed to block Matt's viewing of TV and takes her robe off as we see her back.

ANGELICA

It's been a while Matt. This body has been waiting for you. Do you want to watch me or the TV?

MATT ANDERSON

Off course you, my darling. I know, I know my Angel. I've been dreaming about you, now that you are my fiancé and soon to be my wife after we get through this ordeal.

As Angelica goes on the bed, she starts to take his cloths off.

ANGELICA

Make love with me Matt Anderson as I am leaving tomorrow.

SCENE # 50 ANGELICA IS RETURNING TO TV STATION

A SUV drops Angelica cross the street from the same parking lot that she was picked up. She has tore up cloths and runs toward the TV station. She walks in the TV station to meet her managing director "Manny".

MANNY

What happened to you Angelica?

ANGELICA

If you only knew Manny. I need you to trust what I am going to tell you and promise me that it will stay between us.

MANNY

off course

ANGELICA

Manny, I have been working for you over ten years and the last forty eight hours has been the most important part of my journalism life.

MANNY

Angelica, I have known you since you were nineteen and I brought you here and I never questioned your integrity. Go ahead and tell me.

ANGELICA

OK, Ok. I was not really kidnapped. It was a set up to take me up to the WSO compound to see Matt and learn that there is a conspiracy by our own Government. I have the tape and the proof and you can watch it later.

MANNY

Ok I will but...interrupted

Two military police knocking on the door and enter after passing the newsroom.

MILITARY POLICE #1

We were told that you escaped from WSO and we see her here. What happened? And where is that compound that you escaped from?

ANGELICA

Yes, I was able to escape but the first half an hour in the jungle, I was blind folded with my hands tied up until I was able to use a sharp tree branch to free myself.

MILITARY POLICE #2

How and where did you escape from, exactly?

ANGELICA

I said that I was blind folded but it was not easy to escape.

MILITARY POLICE #1

Explain please

MANNY AS HE RAISES HIS VOICE

What difference does it make, how she escaped. Who contacted you guys, anyway?

MILITARY POLICE #2

It was an anonymous call to our department. I like to know, her answer.

ANGELICA

look at me, I am terrified and I don't need to be interrogated by you too.

MANNY AS HE RAISES HIS VOICE

you guys need to leave right now and come back to take your report later. This is a news station and not a interrogation room. Please leave now.

Manny opens the door and signaling the two military police to leave. And they leave with hesitations.

ANGELICA

lets watch the tape

During the time that they are watching the tape

MANNY

this is unbelievable. I've been around political reports, but this is unimaginable.

ANGELICA

WSO wants to have us initiate the broadcasting of this thirty minutes tape, but as of right now I don't know the time line of the broadcast. Once we broadcast, they have some type of mechanism through government satellites to intercept and interrupt the regular programming in other TV stations and show our tape.

MANNY

Angelica, this is going to boost our rating that has been stagnated, but the risk would be that they will shut down our station and I am not sure if they retaliate and even kill us.

ANGELICA

I know the risks Manny that we need to take for this Country not to fall into a Civil war. So, are you going to cooperate? and if we get caught and they don't let us show the whole thing, then what?

MANNY

We have no choice. American people need to be informed about their latest plots of their government. Let me think a bit. We need a decoy or a diversion in addition to arm security guards to protect us.

ANGELICA

What do you mean?

MANNY

A diversion. We pretend that broadcast gets initiated here, but instead of point A, being here, we will be transmitting from point B, elsewhere.

ANGELICA

So, point A is where we are, will have security but point B will not.

But where would point B be?

MANNY

I know exactly the location which is an old television station. I will send the latitude and longitude coordination by encrypted text. When will you get the transmission signal from Matt?

ANGELICA

Matt will send me a reverse/ encrypted date and time and I will forward it to you. By the way, Matt is my future husband.

SCENE # 51 V.P. CARLA HARRIS AND CHAIRMAN OF THE JOINT CHIEF OF STAFF DON BROADY

The Vice President (dressed provocatively) and Don Broady walk into the V.P. office as they are flirting sexually and talking about the protestors.

The camera shows the monitoring devices as it is taping both as they come in the room.

VP sits at her glass desk with her skirt partially up and Don Broady sits in front of her and checking out her legs and her breasts.

He then goes behind her chair and starts to message her shoulders and gets closer to her breasts. As the VP distance herself and Don goes back and sit across from her.

CARLA HARRIS

Don, what the heck happened? why that stupid drone pilot blow up the wrong SUV?

DON BROADY

My darling, WSO had an informant at the Pentagon in the same room that we do drone missions. The informant distracted the pilot and by the time he turned around, he accidently blow up the wrong SUV full of secret service.

CARLA HARRIS

So stupid Don. I wanted them all killed, so the American people would blame the administration under this president. We failed.

SCENE # 52 AT THE COMPOUND, EVERYONE IS WATCHING

John Haller along with former intelligent directors, their wives, Matt, George and Annie along with WSO freedom fighters watching scene # 51

SCENE #51 CONTINUES

CARLA HARRIS WITH ANGER CONTINUES

On top of that, I get a call from that same informant that ended up killing himself, telling me that our mission went wrong and his mission was accomplished. So he knew it was me.

Don, gets up and gets closer to the VP as he touches her hairs and whispers

DON BROADY WHISPERS

The informant is dead now so we are safe.

CARLA HARRIS, STILL ANGRY

We had a deal Don, didn't we? Our deal is to invoke the 25th amendment due to incompetence. Then I would pick you as my VP. Since you have full control over Army, Navy, Air force, CIA, FBI and Secretary of State. We are a team.

You are my lover, but still you had a job to do. Your first failed mission was the killing of the former directors. Then you sent those two CIA operatives to find the WSO compound, and that was failed. And your last mission was to kill the families of the former directors which still did not happen.

DON BROADY

I know, I know that these are all on me but it's not too late. We can still do this. All I want you to do is to get in front of the main stream media and categorize WSO as a domestic terrorist group so I can find and destroy them.

Carla turns around and get closer to Don as she start to romantically kiss him.

CARLA HARRIS

OK, my future VP

DON BROADY

Yes, Ms. President

SCENE # 53 TEXTS BETWEEN JOHN HALLER AND CHIEF OF STAFF

Texts from John Haller to Chief of staff Ed heart as we see the texts on the screen from both of them as the camera going back and forth between the two men.

ED HEART

We got them

Shall I bring this up to the President?

TEXT FROM JOHN TO ED HEART

No, we copied the whole event and he will see it when the rest of the American people see it in prime time.

SCENE #54 JOHN HALLER AND JERRY ADAM (CIA OPERATIVE)

John and Matt are walking in the hallway to locate the room where Jerry Adam is. Last Order of John was to ask the doctor to take out his both bullets.

By mistake, they enter Annie's room, thinking it is the Jerry Adam's room, but they quickly leave and close the door after they see both Annie and George kissing.

They finally enter the correct room. Jerry Adam gets up half way on the bed.

JERRY ADAM

Oh no. What did I do this time?

John gets closer

JOHN HALLER

Have we been treating you right up to now?

JERRY ADAM

Yes sir, you have, except the torturing part sir. I have to be honest.

JOHN HALLER

I had to do that so you could talk. You know, we could have killed you so we did you a favor to keep you alive. And now, I need a favor back.

JERRY ADAM

Anything Sir. Anything but just don't send me back to them as I will be killed.

JOHN HALLER

On the contrary, you are one of us now. I want you to get in front of camera and say exactly what happened from the time they gave you the order to kill the directors and their families until you got captured and exactly what your mission was.

JERRY ADAM

Any other favors that I can do? because so far as they are concerned, I was killed with the other operative. If you send me out there...interrupted

John takes out his gun, points it at Jerry's head as Matt looks the other way. John swings the gun up in the air again.

JOHN HALLER

You know I shut you twice and this would be the third bullet. You have five seconds. Five, three...interrupted

JERRY ADAM

Oh no, Oh no OK. I will do it. Just give me the script.

JOHN HALLER

There is no script.

MATT ANDERSON

No script? How would we shoot this?

JOHN HALLER

No script Matt. Off script. He tells the story as it happened

MATT ANDERSON

John, are we on for transmission tomorrow at six pacific?

JOHN HALLER

yes we are

SCENE #55 MANNY AND ANGELICA IN NEWS ROOM

As Angelica and Manny talking, Angelica receives an encrypted text from Matt.

MATT'S TEXT

tomorrow 6 PM Pacific

ANGELICA LOOKS AT MANNY

It's tomorrow Manny, are we ready?

MANNY

Yes we are. Yes we are. In order to get our audience's attention, you need to create some type of news break or a special program announcement.

ANGELICA

Let me think about it tonight as we are short in time.

SCENE # 56 INTERVIEW WITH JERRY ADAM BY MATT ANDERSON

MATT ANDERSON

OK, Please be yourself and talk to the camera as you are telling your true story.

JERRY ADAM

Ok. John said no script so I guess I will be myself.

MATT ANDERSON

Action

JERRY ADAM

Ladies and gentlemen, I am one of the two CIA operatives that was contracted by Chairman of the Joint Chief of staff through the present CIA director to locate and the WSO Compound and murder the former CIA, FBI and defense secretary along with their wives. I was hired as a hit man.

I am doing this testimony in the WSO compound and Mr. Matt Anderson is taping this. I have no script and everything that you are about to see and hear is true so help me God. There is no gun to my head to testify.

Our mission failed. Me and my partner got lost in the Jungle. We lost communications as our transponders batteries died and we both got captured.

Unfortunately, my partner got killed in the process and I survived. I decided to confess to WSO directors the truth, that I was hired by my own government to kill the opposition, just like in Russia and China.

I truly believe that, this administration is taking us towards a civil war. This administration does not represent the majority of the American people.

I am glad that I was captured. I am glad that I did not kill these three innocent people that they only disagreed with the administration. I was stupid to take that job that caused my partner killed as well.

I can tell you that the present CIA director is involved in this and I understand that Don Broady and Carla Harris have been plotting this conspiracy. Good night and God bless all of us.

SCENE # 57 AT THE COMPOUND. EVENING BEFORE THE NATIONAL BROADCAST HAVING DINNER - LONG TABLE

John Haller, Matt Anderson, CIA director, his wife, FBI director, his wife, defense secretary and his wife, Jerry Adam, George and Annie are all present having dinner.

JOHN HALLER

Tomorrow at nine PM Eastern, the whole World will change. Are we ready?

GREG CAMPBELL

I was able to coordinate with my friend that I have worked with the last three years. The second after nine PM Eastern time, his company satellite will pick up the broadcast and will transmit to every single TV and radio stations, interrupts all cable networks and entire internet community. During the broadcast any regular programming will be halted for the entire sixty minutes.

The transmission will start with the sound of emergency broadcast system followed by national emergency protocol which will include sounds of sirens anywhere in the US and loud speakers that will get the attention of the American people. The entire transmission will be translated to Mandarin, Spanish, Russian, French, German, Arabic, Punjabi and Turkish.

The sound quality will be boosted from a normal conversation which is about sixty decibels to 90 decibels. Motor cycle sound decibel is 95. My friend knows that after this transmission he will lose his company and he maybe put in prison, but he is willing to sacrifice his livelihood

for the American people. Matt?

MATT ANDERSON

Well, we are very privileged to be safe and sound here in the compound. The ones that will be risking their lives are out there, especially after tomorrow night.

Here is the way I coordinated the entire sixty minutes. The first thirty minutes, will cover the clip that we did with the former directors here in the compound. Right after that, the clip with Jerry Adam will come up, since it is a true story of what happened, leading to the scene with the vice president and her lover, Don Broady.

GREG CAMPBELL

Wait a minute. Angelica does not have the last two clips. All three must be transmitted consecutively or it won't work.

JOHN HALLER

That is my fault. I should have coordinated that with Matt earlier. What can we do now?

MATT ANDERSON

I will need to either physically get them to Angelica at the TV station or..interrupted

GREG CAMPBELL

Or drop it off at my friend's office. John? Which is less riskier?

JOHN HALLER

It is risky either way. Whoever leaves the compound to take it will be taking a risk.

JERRY ADAM

I'll do it. I volunteer. As you know I got here by foot and by now I know how to get back since I am familiar with surrounding of the compound. John, you really have no one else.

I got this and I can deliver.

JOHN HALLER

The question is if we can trust you?

JERRY ADAM

John, I am a dead man walking since I gave my testimony. You have to trust me. You said that I am a part of WSO, so please let me do this. This is a risky operation and I am trained for this, better than anyone else that you have here.

JOHN HALLER

Let's take everyone's vote. All of you that would want Jerry to do this mission, raise your hand and if you don't raise your hand, it means no.

Everyone, slowly start to raise their hands one by one until everyone has raised their hands as John looks around and looks at Jerry and slowly raises his hand as well.

JERRY ADAM

OK. I will not fail you guys or the American people as I know what this means to all of us. I will not fail you John or this mission. I will leave early tomorrow morning and I will deliver it to Angelica at the news room.

MATT ANDERSON

OK. That is settled. I will text Angelica and I will make a package for you and a note with the address and contact.

SCENE # 58 T.V STATION WITH ANGELICA, MANNY AND ARMED SECURITY OFFCERS OUTSIDE (NOON TIME ON THE CLOCK)

It is noon time as the camera shows the news room with several employees and Angelica in her office.

Outside, arm security all around the TV Station.

Jerry slowly moves through the jungle as he stops near the gate to watch the perimeter. The camera shows an armor military police cross the street camouflage and Jerry does not see them.

He quickly approaches the T.V. Station security check as he looks back and asks to see Angelica ASAP.

Moments later, Angelica runs towards the security check. At the same time, the military police jeep also moves towards the security check point. The military police starts to shoot at the direction of the security check and Jerry gets shot at the gate and falls. By this time, Angelica reaches the security check point and grabs the package as she sees Jerry dying and runs towards the news room.

The security guards, start to shoot at the military police but the jeep gets away.

Angelica walks in the news station, look very scared and sits at her desk and opens the package and walks in Manny's office as she is reading the note from Matt.

ANGELICA

Manny, Manny I was just delivered a package. I opened it and it contains two other clips that must be transmitted following the first one. And a note from my fiancé.

Manny, quickly takes the package and reads the little note written by Matt.

THE NOTE INDICATES

Dear Angelica, these two clips are just as important as the first clip and it needs to be transmitted consecutively. I love you and please be careful as I will not survive without you.

ANGELICA

Manny, as we discussed, I will be the decoy and you must take these two clips and run. Don't waste a minute.

MANNY

That is the idea but I was not thinking to leave you here by yourself as I take the package to that undisclosed location.

ANGELICA

I know, but they are monitoring us and I better stay here to pretend that I will be the anchor as usual tonight at six PM news.

I will pre announce several news breaks as we are approaching the six PM, ahead of the main transmittal.

MANNY

That is perfect. I better get going from the back door of the station. I asked your producer and camera man to show a split screen between this news station and the clips. Any events outside or inside of the news room will be shown. Angelica, I hope we both stay alive after this broadcast.

ANGELICA

Me too Manny, me too but we have no choice. We must do this. Please go.

SCENE # 59 MEETING OF THE PRESIDENT AND CHEIF OF STAFF

ED HEART

Mr. President, I wanted to have a short meeting with you, just you and I to discuss several important items.

JOSEPH BALDAN

Sure, what's on your mind? Something wrong?

ED HEART

I think you can say that.

JOSEPH BALDAN

Ed, I have total trust in you, what is it?

ED HEART

Mr. President, do you have the same trust in your vice president?

JOSEPH BALDAN

Why are you asking this question. I selected her. Is she not trustworthy?

ED HEART

My principal in life related to questions and answers is simple. If you can't handle the answer, don't ask the question. A wife must be ready to handle an answer, when she asks her husband about infidelity.

So Mr. President, can you handle the answer?

JOSEPH BALDAN

Well, if you have facts supporting what you know, I do but if this is just your feeling that she is not trustworthy and an opinion, no.

ED HEART

Sir, she is in the process of attempting a coup d'état against you and I have the proof.

JOSEPH BALDAN

Well, that is unbelievable. She has always supported me and stood by me on my right hand side in all the news conferences.

ED HEART

Mr. President, she wants your job. She wants to invoke the twenty fifth amendment to through you out of the office and as you know, Mr. Broady that you appointed as the Chairman of the joint Chief of staff is in charge of army, navy and air force and they both are in good position to do that. They are lovers.

JOSEPH BALDAN

You better have some proof for all of these allegations as these are serious charges.

ED HEART

Mr. President, in just a few hours, you will see the proof on national TV, however I like to jump to a different subject, now that I have your full attention.

JOSEPH BALDAN

Let me guess, Civil war or secession?

ED HEART

Mr. President. You can fire me right here and right right now if you like, but I must be very honest with you about what is really happening on the

streets as I believe, you are totally isolated from reality.

JOSEPH BALDAN

OK, I have heard it all, but hearing it from you, may make a difference as you are also a friend.

ED HEART

Mr. President, you have pushed the American people to the brink of Civil war by proposing the abolishment of 1st and 2nd amendment in the Constitution, forcing vaccination and gun confiscation. I mean, what if you were on the other side, would you submit to all of that?

JOSEPH BALDAN

I have good intention. I want the best for the American people.

ED HEART

Yes, you do and I feel that too, but your approach will result in a crash landing or a civil war. Imagine, there was an incident with a pilot and co pilot in a large passenger plane with multiple passengers or in this case, the American people. And you have no choice to be the pilot due to your past training and take over in the cockpit. Everyone thinks that you know how to land the plane safely. You can only land the plane with the right approach towards the runway. In approaching the runway at night, you must pay attention to the runway two sets of lights that guide the pilots on a final approach. If your two sets of lights are white over white, you will miss the runway. If your two sets of lights are red over white, you will land the plane with no incident, however right now you are approaching the runway on a red over red, which is crash landing.

JOSEPH BALDAN

You are convincing me. I have been thinking about this, day and night. I don't want a crash landing.

ED HEART

Sir, you have good intentions but it is too late to back track now. Your popularity has been dropping and that is why the Vice President is wanting your job. Why are you against secession? Soon, there will be a meeting between the senate minority and senate majority leaders with few senators. You are not invited, but I think we need to be present. Would you be open to go without them being notified in advance?

JOSEPH BALDAN

I don't know. I have to think about it.

SCENE #60 NATIONWIDE NEWS BREAK FREESING ALL REGULAR PROGRAMMING EXACTLY AT 6 PM PACIFIC AND 9 PM EASTERN

Broadcast transmission starts at 5:50 PM at news room with Angelica present at anchor desk. The clips will be showed in partial covering the segment related to the former intelligent agency clip, followed by Jerry Adam's testimony followed by the taped meeting between Carla Harris and Don Broady.

ANGELICA right after "news break"

Ladies and gentlemen, in about ten minutes, our political landscape in our nation will change forever as you will see three different scenes of corruption within our own government which will impact our lives for ever.

What you are about to see and hear will shock you. You will not believe your eyes and ears.

What you will see is actual, real, factual and we will let you be the judge.

## SCENE # 61 DON BROADY RUNS TO VP OFFICE

DON BROADY WITH "panicking" VOICE

Honey, are you watching this? Our sources are telling me that in a few minutes WSO, through a local TV station will be transmitting our meeting and taped video.

CARLA HARRIS, AS SHE IS LOOKING AROUND  
What? they taped our conversation? in this room?

DON BROADY  
Who else has access to your office?

CARLA HARRIS  
Well, the president and off course janitors.

DON BROADY  
Who else?

CARLA HARRIS  
Chief of staff

DON BROADY  
I don't trust that guy. Let me send my men to shut that TV station right now.

## SCENE # 62 EVERYONE IN THE COMPOUND IS WATCHING ANGELICA IN THE NEWS ROOM AND TAPED SCENES ON A SPLIT SCREEN.

JOHN HALLER  
I just got the news that those bastards killed Jerry. I was wrong about him. He made it and he is the only fatality.

KELLY BERO  
Let's wait before you say that too soon.

GREG CAMPBELL  
Everything is ready. The second, they transmit, the satellites will pick up the transmission. The only way they can stop this is get to the undisclosed location where Manny is or

shoot several military satellites,  
that we are using for 60 minutes.

SCENE # 63 T V STATION - T V NEWS ROOM 6 PM PACIFIC

ANGELICA

And here is our feature presentation.  
Action

All of the sudden, we see all TV stations nationwide get interrupted to show three events (VFX). We see segments of the three scenes in multiple locations. Homes, restaurants, bars, airports, bus and gas stations, hospitals and rail road stations. The internet gets completely shut down as the monitors start to show the three events one after another but we only see segments. We see people watching and shocked, placing their hands on their ears ad faces.

The internet gets completely shut down as the user's monitors shows the specific screen related to the broadcast. We see several people trying to log off but can't and they are forced to watch the events.

SCENE # 64 MILITARY POLICE ON BEHALF OF THE GOVERNMENT,  
ATTACK TO DESTROY THE BROADCASTING OF THE 3 EVENTS IN THE TV  
STATION.

We see military police and U S Marshal surrounding the TV Station where Angelica and her co workers are simply a decoy. There is a battle between the TV Station armed security and the Military police.

Several warning shots by military police for the arm security to leave the premises and since they don't leave, they get shot, one by one.

Military police and US Marshal, break the locked glass entrance door to the interior of the TV station, totally unaware that they are on camera as the images of them breaking in shows on a split screen for everyone to see.

They enter and start shooting several people at their desks and searching for news room where Angelica is sitting and broadcasting.

As Angelica sees they are coming and getting closer, she tries to hide under her desk as she is terrified. Military police, walk in the news room.

MILITARY POLICE

Don't hide as all we want is the point  
of broadcast origination.

Our mission is to destroy this  
transmission.

ANGELICA

It is not here. You are welcome to  
look but the transmission is  
elsewhere.

MILITARY POLICE

Where? or I have orders to kill you.

Angelica nudes as she would not want to cooperate. Military police uses his helmet speaker to ask for permission to shoot as Angelica raises her two hands. The camera in her office shows the entire scene as all of the sudden she gets several shots and her head falls on her desk, barely alive.

ANGELICA AS SHE IS SLOWLY DYING POINTING  
AT THE CAMERA

Secession will keep us from killing  
each other. Civil war and loss of our  
freedom is not the answer, secession  
is the answer.

Moments later, the military police start shooting the station cameras and the screen goes black (VFX).

MILITARY POLICE THROUGH HIS HELMAT

We can't find the transmission source.  
Over and out

SCENE # 65 AT THE COMPOUND WITH MATT AND ALL THE CASTS  
WATCHING

As Matt Anderson watching the whole scene, he puts his hands on his face and starts crying.

Annie and three director's wives get closer to put their hands on him and hug him as they start weeping.

John and rest of the guys start to put their heads down for a moment of silence.

## SCENE # 66 AT OVAL OFFICE WITH PRESIDENT AND CHEIF OF STAFF

Both the president and chief of staff, just finished watching the three events on the TV.

JOSEPH BALDAN

Let's go, come with me

They both leave the Oval office and through the hallways, enter the VP office unannounced and they both see the VP and Chairman of the joint chief of staff on the couch making out. Carla starts to fix her cloths and stands up.

JOSEPH BALDAN

You both are fired.

CARLA HARRIS

Mr. President, un announced sir? what happened?

JOSEPH BALDAN

I guess you both missed your own performances. While you were making out, the whole Country watched you plotting for a coup d'état and invoking the 25th amendment and ordering the killing of the three former intelligent directors.

DON BROADY

Sir, with all due respect, you are firing us but you, yourself will soon be fired by the American people.

## SCENE # 67 MEETING BETWEEN SENATE MAJORITY, SENATE MINORITY LEADER AND OTHER SENATORS, DISCUSSING STEPS TOWARDS SECESSION

Six senators, three from the Republican party, senators Joseph Kennedy (Louisiana), Senator Ron Johnson (Republican Minority leader - Florida) and senator Bill Anderson (Texas) along with an independent senator Bernie Rosenberg (New Hampshire) and two democratic senators Tim Scott (New York) and Charles Henderson (Majority Senate leader - California) present.

Senator Bernie Rosenberg

Since I am the only independent senator, I would like to start the meeting with a statement.

First, I have consulted with my constituents, that once we agree in terms of the trajectory where our Country will be going, our party will terminate it's existence for ever and this nation will become a two party nation.

Having said that, lets open the discussion as to the reasons why we are having this meeting without the President. With all that has happened in our nation, we need to create and approve an article which will end up to be an amendment to the constitution. Historically, this has never happened.

SENATOR RON JOHNSON

Well, my state of Florida per the media has been a toss up, but it is not the case as it needs to stay red. In the 2020 election Biden edged out Trump, because of the narrow victory in the key swing states such as Arizona, Georgia, Michigan, Pennsylvania and Wisconsin. The conflict became that Biden won Michigan by about 3 percentage points, Pennsylvania by one point and Wisconsin by less than 1 point. Our Hispanic and Cuban Americans helped Trump in 2016.

SENATOR BILL ANDERSON

My state of Texas is mainly red except Dallas Fort Worth and few smaller counties.

One thing for sure is that, we can not create the article as democrats or Republicans, we need to be doing this as Americans. We are at the final hours. This committee must initiate the separation of the States.

All of the sudden, the door opens and president and chief of staff walk in, unannounced.

ED HEART, BEING OBNOXIOUS

We never received an invitation to join this meeting, did we miss it? If this meeting is about secession, why we were not invited?

SENATOR BILL ANDERSON

Welcome Mr. President. You came in at the right time. The plan was to have this meeting and come to some type of resolution prior to meeting with you.

JOSEPH BALDAN

Do you all believe that, this discussion should be debated before the American people and both houses of Congress?

SENATOR BERNIE ROSENBERG

Mr. President, this is just a discussion. We are not making any decisions.

ED HEART

Mr. Anderson, please continue so we can hear the discussion. Is that OK, Mr. President?

JOSEPH BALDAN

Please go ahead

SENATOR BILL ANDERSON (TEXAS)

As I was indicating, before the President and Chief of staff walked in, we need to select the prospective red and blue states. So I made a list based on the last three elections and here is what I propose. Twenty seven Republican States and twenty five Democratic States including the District of Columbia where Washington DC is in.

Here are the Red states: 27 of them so let me read them to you.

The red states are: Florida, Texas, Arizona, Georgia, South Carolina, South California, Ohio, Louisiana, Mississippi, Alabama, Arkansas, Oklahoma, Missouri, Tennessee, Kentucky, Indiana, West Virginia, Kansas, Nebraska, South Dakota, North Dakota, Wyoming, Utah, Idaho, Iowa, Montana and the last frontier Alaska.

Here are the Blue states : 25

The blue states are: North California, North Carolina, New York, New Jersey, Oregon, Washington State, Colorado, New Mexico, Nevada, Wisconsin, Michigan, Pennsylvania, Main, New Hampshire, Virginia, Illinois, Massachusetts, Rhode Island, Delaware, Minnesota, District of Columbia with Washington DC, Connecticut, Vermont, Maryland and Hawaii.

I did suggest that we break up California into two States. North and South California with the borderline being LA and Orange County down to San Diego.

PRESIDENT LOOKS AT CHIEF OF STAFF AND OTHERS AS HE PUTS HIS HEAD DOWN AND CONTINUE TO LISTEN. EVERYONE NOTICES THAT.

SENATOR CHARLES HENDERSON

I propose to take a closer look at each State before ratifying the amendment as I am assuming that once the States are separated, the people in the counties in that particular State need to live under Republican or Democratic rules.

I agree with Senator Anderson. For example, in my State of California, we know that from the LA County up to San Francisco, we mostly have liberal democrats. And in the South, we have mostly Republicans. For example, do the Republicans that live in Northern California must adhere to the Democratic governor?

Does this also mean that there would be an election for Republican governor and mayors in north California?

JOSEPH BALDAN

If the idea is to create a one hundred percent Republican and Democratic states, then I think the election would be in order from Governors down to mayors and legislatures.

SENATOR BILL ANDERSON

Are we suggesting that once the States are designated as Republican or Democratic states, Republicans that would live in Democratic States or vice versa are forced to move out?

SENATOR BERNIE ROSENBERG

Bill, We are not suggesting that at all. The Americans that live under either party, have three choices to make. One is to change party. Two is to move to another State of their choice or three, stay put and like it or not, simply be under the rules of the opposite party.

Will we have any boarder crossing issues from one State to another?

JOSEPH BALDAN

Bill, If you are asking me, I think, absolutely not. There are no issues in 44 European Countries as you can freely move from one Country to another, however once you pass the boarder, you must accept that you need to abide by the rules of that state. There is a fourth choice and that is surrendering their U S Citizenship and move out of the Country.

And by the way, I am more concerned with the separation of power, A new election of a Republican and a democratic president that can live and work together from the same white house.

SENATOR BILL ANDERSON

Mr. President, that should not be that hard. As you know, the White House, typically has over four hundred employees and over fifty thousand square feet, which is plenty of room for two presidents to co exist with their wives. We do need to have the nation to elect a Republican president and you also need to be a candidate in the Democratic party in the primary. You need to convince the American people to vote for you, unless you prefer a recall? and let voters decide.

I propose to abolish electoral college and go with popular votes as well.

JOSEPH BALDAN

I happen to agree with you as I am sure that I can win the democratic nomination. As I understand it, the red states will be under Republican Federal Government with the Republican president presiding over those states and the blue states will be under Democratic Federal Government with the democratic president presiding over those states.

Separating states and not considering the fact that certain Red or Blue states still may have pockets of resistant in counties that they just don't want to be part of a selected party will be an issue. I happen to agree with you on the popular votes.

SENATOR RON JOHNSON

Mr. President, no pain, no gain. There will be sacrifices along the way and there will be resistance. However, there are no other options. My state of Florida has been independent just like New York and California has been.

There are counties in my State like Brevard county that will resist secession, but we need to educate that segment of the population to face the reality. Making them understand that the alternative will be civil war or communism. I hope Palestine and Israel will follow our two state solution as well, some day.

ED HEART

Mr. President, we have discussed this you and I in the past and your last word was that you were convinced to go towards secession.

JOSEPH BALDAN

I remember and I am for this amendment to the constitution which by the way must cover a modification of the first and second amendment.

SENATOR JOSEPH KENNEDY

We are not going there Mr. President. Each president through their own administration can set rules, but we are not revamping the constitution as this is only an amendment and it will not revamp the constitution.

EVERY ONE NUDES IN AGREEMENT

ED HEART

Is there any way that the new election will be only for selection of the Republican but not the democratic president as we already have our president sitting here right now, correct?

Every body in the room look at each other and shake their head as a "no way" mode.

SENATOR CHARLES HENDERSON

No sir. Mr. President, with all due respect, a new election is in order and it must be fair and square and although you will be a candidate for the democratic party, but we can't just ignore the fact of what you have implemented.

Words, count Mr. President your administration has failed the American people up to now.

JOSEPH BALDAN

I happen to agree. I have an explanation to give to the American people. Be on a watch for my speech.

SCENE # 68 BREAKING NEWS "PRESIDENT'S SPEECH"

JOSEPH BALDAN

My fellow Americans, earlier today both me and my chief of staff walked in the Vice President office, unannounced and I fired both the Vice President along with the Chairman of the joint chief of staff for an attempt to murder the three former intelligent directors and their families in a plot to blame my administration. I had nothing to do with that. They both have been collaborating on a conspiracy to push me out of the office and take power by invoking the twenty fifth amendment as you saw in the broadcast that took place which every one saw.

On a separate note, I have just attended a discussion between the majority democratic senator Charles Henderson and minority republican senator Ron Johnson and my chief of staff. Subsequent to that meeting, I consulted with few other ranking members of the house and senate and I now can see that I have stepped way over my authorities as your president and commander in chief.

The result of the discussion we had takes our nation and you the American people to an uncharted territory of secession or separation of the Republican and Democratic States.

At this point in time, I am no longer going to bend to our extreme left wing of our party, the progressive movement.

We can't move towards communism and we must stay clear from a civil war. We must take a U turn and continue in a different direction.

I welcome an article that would eventually be reduced to an amendment to the constitution that must be ratified by both houses of the congress and the supreme court before I sign to make preparation for an election of a new Republican and Democratic president.

I will be running as a candidate in the democratic party and I welcome my Republican counter part or my future roommate (jokingly) at the white house.

For now, I am appointing my chief of staff Mr. Ed Heart to take the role of the vice president and he will be actively look for a new CIA director and Chairman of the joint Chief of staff.

You the American people will get to vote for two presidents for the first time in our history.

United states will be separated into twenty seven Republican states and twenty five Democratic states and the voting process will be easy as the Americans that live in the Republican states will vote for a Republican President and the Americans that live in Democratic states will vote for a democratic president. Off course, this is after primary.

Based on the proposals and discussions we had, We will do away with electoral college and strictly count on popular votes. So your votes matters. Please, Please , Please be patient as the future is bright and be peaceful if you are intending to protest and make no judgments until you know the

items that will be discussed in the amendment to the constitution.

I like to apologize to American people that I should not have gone so far as taking away your rights under the first and second amendment. Although I had a good intention, I was wrong and I am sorry as I ask for your forgiveness.

Good night and God bless our nation.

SCENE # 69 T.V. STATION THAT HAS BEEN RANSACKED

The news station that has been ransacked when the military police murdered Angelica and her colleagues is the scene where Manny, John Haller and Matt Anderson meet.

Cameras rolling

MANNY

Mr. Anderson, I lost my best friend and your future wife here in this station. At least she died for what she believed and got killed by operatives of this administration.

Matt Anderson tries to hold his exposure, not to cry in front of the camera as John gets close to hug him.

JOHN HALLER

Manny, both me and Matt took a heck of a risk along with Angelica and yourself. We came down for Matt to have a closure. All the killing plots was through the former vice president. She was close enough to have full control over our military and almost successful to replace this president.

Manny pose to interview both men as he tries to keep his exposure.

MANNY

John, why did you take this risk? If it was not because your organization WSO, we would be in Civil war, correct?

JOHN HALLER

Manny, American people typically have a negative concept of under ground organizations like WSO. They think, since it is underground, it is illegal, but in this case, our government was being run by the person that seeked power no matter what. WSO has never been or is now a terrorist organization. We have lost some of our freedom fighters to save the three former intelligent directors and their families. We did not want this nation to end up in a civil war and now, we have proved to American people that Secession is the only hope for us.

I only have one request from the future Republican president. The three directors, Mr. Greg Campbell, Mr, Ken Jameson and Mr. Kelly Bero have made major contribution in WSO and since they were let go for a disagreement, I like to ask that the future Republican president offer them their jobs back.

MANNY

I agree with you John. What about you Matt?. You produced the clips that we used to prove our case to American people and in between you lost your faience. Is this a closure for you?

MATT ANDERSON

Ladies and gentlemen, I have been an investigative reporter over twenty years and all of the sudden both me and my future wife became a part of the news. This news conference is dedicated to my Angelica. As an American and a member of WSO, I am proud to be a part of this revolution to change the direction of this nation.

At this time, the three former intelligent directors walk into the set.

KEN JAMESON

We have been working behind the scenes with WSO to show the American people our opposition against this administration. We all would have been murdered if it was not because John and his freedom fighters.

MANNY

I was just informed that this interview has been picked up by most of the networks and cables as well. It was a miracle to be able to shut down the entire internet, networks and cable to show to American people the truth, leading us to secession.

GREG CAMPBELL

You are correct Manny. Some of us are hero's sitting here and some of us are hero's behind the scenes. I have been fortunate that my close friend was able to broadcast the three events and even this event nationwide (pointing to the camera), and this administration tried to shut it down but they were not able to as my close friend and his entity was able to use multi satellites in high orbits to do this. None of the big tech get credit for this.

KELLY BERO

I say, let's move on and follow the election of two new presidents that would run this country more efficiently and for the first time, the American eagle has it's two wings to fly and take us all up there (pointing to the ceiling).

SCENE #70 WE SEE SCENES OF PEOPLE STANDING AND VOTING FOR A REPUBLICAN PRESIDENT, GOVERNORS AND MAYORS IN RED AND BLUE STATES

SCENE #71 FINAL SCENE WITH TWO PRESIDENTS COVERING PORTIONS OF THE ARTICLE THAT WOULD END UP TO BE AN AMENDMENT TO THE CONSTITUTION. ALL CAST MEMBERS ARE PRESENT AT THE FRONT.

The newly elected Republican president with the existing democratic president that is reelected.

DEMOCRATIC PRESIDENT (JOSEPH BALDAN)

It is an honor and a privilege to be confirmed as the newly reelected president for the twenty five Blue states.

I am grateful to the American people that accepted my apology and gave me a second chance. I know this is my second and final chance to prove myself and the new administration.

We have come a long way, after we pushed the breaks for our nation not to be a socialist nation and we dodged the Civil war which was eminent.

The amendment to the constitution will shortly be signed by me and my colleague and my counter part and my new roommate (jokingly), the Republican president (Mr. Donald Cruz), standing near me, who will cover the main portions of the article that will construct the amendment to the constitution.

This amendment has already past the two houses of the congress and the supreme court.

Mr. President, would you like to announce what this amendment cover and how we both can get along in this little house (jokingly)? Without bumping to one another, share the air force 1 and oval office?

REPUBLICAN PRESIDENT (DONALD CRUZ)

My fellow Americans, we are now going to experience the two state solutions in our nation.

You now can be a democrat or a Republican and you have a choice to live or work in a Republican or a Democratic State. If you are not neither, then you have nothing to worry about.

We now have ratified the amendment to the constitution of the United States and it will be signed in a few minutes.

We now have twenty seven Republican States and twenty five Democratic States including the district of Columbia.

Here are the Red states: 27

The red states: Florida, Texas, Arizona, Georgia, South Carolina, South California, Ohio, Louisiana, Mississippi, Alabama, Arkansas, Oklahoma, Missouri, Tennessee, Kentucky, Indiana, West Virginia, Kansas, Nebraska, South Dakota, North Dakota, Wyoming, Utah, Idaho, Iowa, Montana and the last frontier Alaska.

Here are the Blue states : 25

North California, North Carolina, New York, New Jersey, Oregon, Washington State, Colorado, New Mexico, Nevada, Wisconsin, Michigan, Pennsylvania, Main, New Hampshire, Virginia, Illinois, Massachusetts, Rhode Island, Delaware, Minnesota, District of Columbia with Washington DC, Connecticut, Vermont, Maryland and Hawaii.

The article covers a division of the present 435 members of the house of representative into two hundred and seventeen Republican and two hundred and seventeen democratic members that would be voting separately on Republican or Democratic issues.

No more crossing the isle or bipartisanship on any future debates. We would be much more efficient passing bills than ever before.

Both presidents will reside at the White house, we independently will select our own cabinet and federal judges in addition to attorney general. The intelligent directors and joint chief of staff that consists of Chairman, the vice chairman, chief of staff of the Army, Naval, space force and Air Force along with CIA, FBI and secretary of state and secretary of defense will continue to brief both presidents on domestic and national matters. By the request of Mr. John Haller of WSO, I am also going to extend an offer and an invitation to the former directors that were wrongfully were terminated to join my administration. I like to thank them for the sacrifices and the risks that they made to bring us to this point. I like to ask them to stand up with their wives, along with Mr. Anderson and Mr. Haller for a round of applause.

The camera shows Donald Cruz, pointing to the cast as they stand and the crowd clap for them.

One more thing, before I ask Mr. Baldan to cover few things. The term limit will remain four years for the house or senate members. Mr. President, would you take over for the next portion of the article?

DEMOCRATIC PRESIDENT (JOSEPH BALDEN)

Let me cover some more items Mr. President.

Our party will not pack the supreme court. There would be two sets of supreme court justices. Nine Republican justices will vote on issues that are related to republican States.

Nine Democratic justices will vote on issues that are related to Democratic States.

The senate will also be divided into two sets of fifty Republican and fifty Democratic senators. Republican senators will only debate and ratify the bills from the Republican house of representative and the same procedure would apply to the Democratic senate.

Our nation will continue to have boarder control with Canada and Mexico, but no boarder control between the Red and Blue states, so once you enter a state, you must obey the laws of that state.

Obviously the Republican States will have Republican governors and mayors and the same applies to Democratic states.

Democratic Federal government will still enforce issues such as pro life, universal health care, free college tuition, Green energy and issues related to Global warming.

There will be financial, housing and job assistants from both governments for those Americans that like to move from one State to another.

REPUBLICAN PRESIDENT DONALD CRUZ

We are still one nation but soon to be under two governments.

We know that there are advantages and disadvantages, the ways that the Republican and Democratic mayors will run their cities, however we will make sure that the Federal and State governing laws will not be in conflict as they presently are in most States.

There will be a combined efforts between the two governments when it comes down to our infrastructure, federal buildings, highways and bridges.

In all Republican States, there will be freedom of speech and right to own guns. There will be psychological test along with background checks before purchasing guns. We will confiscate illegal guns and the police officers will have the right to ask for permits. We will not tolerate any gang activities including but not limited to M S 13.

Freedom of speech of any kind will be restored in colleges and university campuses and there will be fines and imprisonment for any disruptions. All topics are allowed.

We will restore all historic monuments that has been taken out or damaged by rioters in the past and destroying them again will be a felony. Peaceful protests will be allowed. Violence, looting destroying personal and businesses is equal to minimum ten years of imprisonment in addition to hefty fines.

We will initiate Capital punishment in all Republican states and all criminal and terrorism cases will be on a fast track. There will be no more military courts like the trial that should have taken place in Guantanamo Bay for the five animals that did the atrocity in 911.

We will abolish the "attorney Client Privileges" so criminal defense attorneys watch out. If your client tells you that he or she committed the crime, you maybe called to testify on the stand. You would then lose your license in addition to additional penalties.

In Republican States, use of marijuana would be illegal unless for medical purposes only.

No one will be forced to be vaccinated. In schools, it is the parent's choice to vaccinate their kids or have them wear masks.

The big tech companies such as Google, face book, Twitter and YouTube can no longer have the right to sensor any speeches or they will be fines astronomically. Section 230 C1 that has given them the immunity from any liability will be dropped in all Republican States. American people will be the judge of speeches, not the big tech.

Tax payers in both Republican and Democratic States will continue to pay their Federal income tax and IRS will divide the revenue per pro rata share of the states between the two governments. If there is a shortage in the budget, one government will loan the other such shortage at a zero interest.

The residence in Republican states must be legal with green card or citizenship and can not vote without the ID cards. Law enforcements have the right to stop anyone for no reason to ask for Citizenship documents and if no documents presented, they will report to US Department of Homeland Security-Immigration and Custom for an immediate deportation.

We will respect LGBTQ community as well and there will be no racism against blacks, brown, gays, lesbians or transgender.

## DEMOCRATIC PRESIDENT (JOSEPH BALDAN)

In Democratic States and I am sure in Republican States, we will be removing any tax breaks or loop holes for high earners to pay their fair share of the taxes.

We will limit the production of gasoline cars, fossil fuel and building any nuclear power plants.

There will be no off shore drilling as we will move towards natural gas and alternative energy.

We will also limit and distribution of guns, semi and full automatic rifles and we will slowly confiscate them.

We will not have capital punishment in Democratic States.

Both men look at each other and smile as the the cameras are showing they walk towards each other, shake hands and facing the cameras with lots of reporters taking pictures and photo ups.

they sit at signing desk to sign the amendment to the constitution while all the cast are watching
